SIOUX CITY (KTIV) - For the first time in seven years, a commercial flight from Denver, Colorado touched down at Sioux Gateway Airport.

Sioux City has not had air service to Denver since Frontier Airlines discontinued its flights in 2013.

On Wednesday, several airport and city leaders held an **open house and ribbon cutting** to celebrate.

The Sioux City City Council approved the terminal lease for SkyWest airlines back in September.

The lease will provide one daily round-trip flight from Sioux Gateway Airport to Denver International Airport.

A Skywest representative that was at the ribbon cutting says the route is an opportunity for everyone in Siouxland to be able to connect on United Global Network.
