

**IOWA DEPARTMENT OF TRANSPORTATION**

To Office Bridges and Structures Date May 1, 2009  
Attention All Employees Ref No. 521.1  
From Gary Novey  
Office Bridges and Structures  
Subject Revision of the English Bridge Standard 4305A.  
(CADD M0144)

The standard is located in the EnglishStubBridge file. Electronic copies are available in the following Office of Bridges and Structures standard directory  
**W:\Highway\Bridge\Standards\Bridges** and on the Internet:

<http://www.dot.state.ia.us/bridge/standard.htm>

The revision to the 4305A standard was the addition of the Temporary Slab Overhang Bracket Detail. The detail shows design assumptions that were made for the construction loading on the exterior girder. If the contractor exceeds these assumptions, then they must submit details and loads the Engineer for approval.

This revised standard should be used on all new projects that have not been detailed. If you have any questions about these revised standards, please check with Thayne Sorenson or Dean Bierwagen.
