IOWA DEPARTMENT OF TRANSPORTATION

To Office Bridges and Structures     Date September 1, 2014
Attention All Employees
From Gary Novey
Office Bridges and Structures
Subject Revision of the English J40-06 Bridges Standards listed below.
(CADD M0387)

Electronic copies are available in the following Office of Bridges and Structures standard directory W:\Highway\Bridge\Standards\Bridges and on the Internet:

http://www.iowadot.gov/bridge/standard.htm

This is the revision of the J40-06 Bridge Standards.

The J40-51-06 Bridge Standard was revised to extend the Macadam Stone area 2’-0 in front of the Bridge Wing.

The J40-52-06 & J40-53-06 Bridge Standards were revised to remove the TECHNICAL DATA INFORMATION – GEPTEXTILE FABRIC table shown on these standards. This information is in the Standard Specifications book (Article 4196.01,B, 6 – Table 4196.01-6) and does not need to be shown on these Standard Sheets. A note was added to these standard sheets referring to the Article. The surface flooding time was changed to 5 minute increments for the floodable backfill lifts.

For any questions, please check with Stuart Nielsen or Thayne Sorenson.
