

IOWA DEPARTMENT OF TRANSPORTATION

To Office Bridges and Structures

Date July 30, 2004

Attention All Employees

Ref No. 521.1

From Gary Novey

Office Bridges and Structures

Subject Method's Memo No. 94 (T.O.S. Elevations for Beam Bridges)

The following revision has been made to current office policy (See Bridges and Structures Design Manual, Article 5.2.4.1.2) and Methods Memo No. 51. For beam bridges, the top of slab elevation does not need to be provided at the parabolic crown lines. This change should be made to plans that are currently being developed.
