TRANSPORTATION DEPARTMENT[761]

Notice of Intended Action

Proposing rule making related to vehicle registration and certificate of title and providing an opportunity for public comment

The Department of Transportation hereby proposes to amend Chapter 400, “Vehicle Registration and Certificate of Title,” and Chapter 405, “Salvage,” Iowa Administrative Code.

Legal Authority for Rule Making

This rule making is proposed under the authority provided in Iowa Code sections 307.12, 321.20 and 326.33.

State or Federal Law Implemented

This rule making implements, in whole or in part, Iowa Code chapter 326 and sections 17A.3, 321.1(75), 321.13, 321.20, 321.31, 321.46A, 321.52, 321.126 and 423.26.

Purpose and Summary

The proposed amendments form a comprehensive update of the Department’s rules affecting or involving vehicle registration and certificate of title to better implement and align with existing legal authority and Department practice and to eliminate outdated or irrelevant requirements or options.

The term “proportional” is replaced with “apportioned” throughout Chapter 400 to conform to the language used within Iowa Code chapters 321 and 326 to describe registration fees under the International Registration Plan.

The electronic registration and titling (ERT) process is updated to remove the need for dealers to obtain a notarized power of attorney and instead to require the vehicle purchaser to provide the dealer with written authorization for each ERT transaction. The proposed amendments also reduce the record retention period for original documents from three years to six months. Requiring written authorization from the vehicle purchaser rather than a power of attorney and reducing the record retention period from three years to six months ensure the integrity of the ERT process without putting an undue burden on the participants in that process.

An Iowa Code change regarding salvage certificate registration fees for a motor vehicle that is expected to be transferred to an insurer as a result of a settlement with the owner(s) is incorporated into the rules. The amendments clarify that, as provided under Iowa Code section 321.52(4) as amended by 2017 Iowa Acts, chapter 31, section 2, an insurer obtaining a salvage certificate of title is not required to submit the last-issued certificate of title when applying for an Iowa certificate of title and that the title shall be issued free and clear of all liens and claims of ownership, including any outstanding registration fees or registration penalties.

The process for when a vehicle owner’s legal name has changed is clarified to provide that the vehicle owner is not required to obtain a corrected title with the owner’s new name but must obtain a replacement registration card that reflects the owner’s new name. Iowa Code section 321.20(1) requires both the title and the registration to reflect the owner’s correct legal name at initial application, but the Iowa Code does not require the title to be reissued if the owner’s name is subsequently changed. Rather, the Iowa Code requires the Department to properly maintain the record of ownership and to change the record as necessary to keep it accurate. Iowa Code section 321.31(1) requires the Department to maintain a record system that includes the name of the owner, to update information required to be kept in the record system within 48 hours of receipt of the information, and to include a record of the certificate of title that includes any information deemed necessary and makes the Department record system the permanent record of ownership for the vehicle. Iowa Code section 321.31 provides that the record system shall constitute the

permanent record of ownership of each vehicle titled under the laws of this state, and this, in essence, makes the Department the abstractor of the vehicle record. If a person changes the person's name, the person is required to report the name change to the Department, and the Department will change the person's record to reflect the name change. Ultimately, the Department's record, with the person's new name, becomes the record of ownership without a change of title, and the person's registration receipt for the vehicle is updated to match the Department's record.

The proposed amendments also eliminate outdated requirements to utilize paper forms when authorizing a record change and when submitting paper vehicle identification number forms for purposes of issuing a corrected title and eliminate the requirement for the county treasurer to notify the Department by regular mail or email of a title conversion and cancellation for a manufactured or mobile home converted to or from real property.

Fiscal Impact

This rule making has no fiscal impact to the State of Iowa.

Jobs Impact

After analysis and review of this rule making, no impact on jobs has been found.

Waivers

Any person who believes that the person's circumstances meet the statutory criteria for a waiver may petition the Department for a waiver under 761—Chapter 11.

TRANSPORTATION DEPARTMENT[761]

Notice of Intended Action

Proposing rule making related to driver’s licenses and providing an opportunity for public comment

The Department of Transportation hereby proposes to amend Chapter 605, “License Issuance,” Iowa Administrative Code.

Legal Authority for Rule Making

This rule making is proposed under the authority provided in Iowa Code sections 307.12 and 321.196.

State or Federal Law Implemented

This rule making implements, in whole or in part, Iowa Code sections 321.182, 321.189 and 321.196.

Purpose and Summary

The Department is proposing to update Chapter 605 to incorporate amendments that align with existing legal authority and Department practice and to eliminate outdated or irrelevant requirements or options and accommodate modern electronic procedures.

The proposed amendments update the physical description related to eye color to align with eye color selections that already exist in the electronic license issuance system and strike outdated language related to the fee for a replacement license issued when a person no longer needs a license marked “under 18” or “under 21.” Previously, Iowa Code section 321.189(6) set the replacement fee for this type of license at \$1; however, the statute has since been amended to set the replacement fee at \$10.

The Department is proposing to simplify the address change process to clarify that an address change may be completed online at the Department’s website or at a driver’s license kiosk and to no longer require that a person renewing a driver’s license produce two forms of proof to notify the Department of a residential address change. The proposed amendments also allow the renewal of a person’s driver’s license within 180 days prior to the expiration date of the license, which provides more convenience and flexibility to the renewal process.

Finally, the proposed amendments expand the list of who can take advantage of the online license renewal option by allowing a person with a “J” restriction that corresponds directly to a “7” (minor’s school license), “Y” (intermediate license) or “I” (ignition interlock required) restriction on the back of the person’s driver’s license to be able to renew the license online because these combinations of restrictions do not affect the person’s eligibility to renew the license online.

Fiscal Impact

This rule making has no fiscal impact to the State of Iowa.

Jobs Impact

After analysis and review of this rule making, no impact on jobs has been found.

Waivers

Any person who believes that the person’s circumstances meet the statutory criteria for a waiver may petition the Department for a waiver under 761—Chapter 11.

Public Comment

Any interested person may submit written comments concerning this proposed rule making or may submit a written request to make an oral presentation at a public hearing. Written comments or requests to present oral comments in response to this rule making must be received by the Department no later than 4:30 p.m. on July 24, 2018. Comments should be directed to:

TRANSPORTATION DEPARTMENT[761]

Notice of Intended Action

Proposing rule making related to the statewide sobriety and drug monitoring program and operating while intoxicated revocations and providing an opportunity for public comment

The Department of Transportation hereby proposes to amend Chapter 620, “OWI and Implied Consent,” Iowa Administrative Code.

Legal Authority for Rule Making

This rule making is proposed under the authority provided in Iowa Code sections 307.12 and 321J.20.

State or Federal Law Implemented

This rule making implements, in whole or in part, Iowa Code chapter 901D and sections 321.201 and 321J.20.

Purpose and Summary

The Department is proposing to update Chapter 620 to incorporate requirements for a new statewide sobriety and drug monitoring program (24/7 program) established by 2017 Iowa Acts, chapter 76. Because of this legislation, the Department is amending its rules to align with the legislation in anticipation of the implementation of the program in 2018.

The Department of Public Safety (DPS) is charged with creating the 24/7 program in Iowa under Iowa Code chapter 901D as enacted by 2017 Iowa Acts, chapter 76. The program requires participants to complete daily alcohol or drug testing in participating jurisdictions according to rules governed by DPS. The Department is also required to adhere to the program requirements as they relate to the issuance of temporary restricted licenses (TRLs) and regular licenses to an OWI offender who committed an eligible OWI offense in a participating jurisdiction. Eligible OWI offenses are defined in Iowa Code section 901D.2(4) and include a first offense OWI in which the person’s blood alcohol content exceeds .15, a first offense OWI in connection with an accident, a first offense OWI test refusal or any second or subsequent OWI offense. Participating jurisdictions must be approved by DPS and may be counties or other governmental entities that choose to participate in the program. There are not currently any participating jurisdictions as DPS is still finalizing an agreement for the development of web-based software to support this program; however, Woodbury County has indicated an interest in participating in a pilot of the 24/7 program in 2018.

As specifically related to the Department, the legislation amended Iowa Code section 321J.20 to allow a TRL to be issued for the purpose of traveling to and from a person’s home to a 24/7 testing location. Also, Iowa Code section 321J.20(10) was newly created and requires a person to be a participant in and in compliance with the 24/7 program if the person committed an eligible offense in a participating jurisdiction, unless participation has been excused by court order, whenever the Department requires the installation of an ignition interlock device (IID) as a condition of the person’s driver’s license or driving privilege. The person must remain in compliance with the program for as long as the person is required to have the IID, unless otherwise provided by Iowa Code chapter 901D or section 321J.20.

The proposed amendments:

- Amend the rule related to issuance of a TRL as follows:
 - Provide that a TRL issued for any purpose may include permission for the licensee to participate in the 24/7 program if required under the law and provide that the licensee must notify the Department which jurisdiction the licensee is reporting to in compliance with the program.

- Eliminate an outdated requirement for a person to appear before a driver's license examiner to be issued a TRL. This change aligns with Department practice of allowing any properly trained driver's license issuance employee, rather than a specific classification of employee, to assist the person.

- Strike subrule 620.3(6), which encompasses requirements for TRLs issued to repeat offenders, because the subrule is no longer necessary. The subrule was initially adopted in 2009 to comply with federal law related to consequences for repeat OWI offenders who previously were not allowed to obtain a TRL except strictly for work purposes in the first year of the revocation period. In the intervening years, the federal requirements regarding repeat OWI offenders and TRL restrictions were changed, and this subrule no longer reflects the requirements in federal law nor the Department's current practice. Therefore, the subrule is being removed to avoid the implication that a repeat offender cannot use a TRL to participate in a 24/7 program, which is clearly anticipated as a permissible use of a TRL under 23 U.S.C. §164(5)(A)(iii).

- Amend the rule related to reinstatement of a person's driver's license after a revocation has ended as follows:

- Eliminate an outdated requirement for a person to appear before a driver's license examiner to reinstate the person's driver's license. This change aligns with Department practice of allowing any properly trained driver's license issuance employee, rather than a specific classification of employee, to assist the person.

- Strike an outdated requirement for a person to provide proof of deinstallation of an IID to reinstate the person's driver's license, unless the IID is still required under Iowa Code section 321J.17(3). The Department's existing practice does not require the person to provide proof of deinstallation of the IID as that requirement was previously removed from Iowa Code section 321J.20. There is no valid safety reason to require proof of deinstallation of an IID, and a person may choose to continue to drive with an IID installed.

- Provide that a person's participation in and compliance with the 24/7 program may be a condition of license reinstatement in accordance with Iowa Code section 321J.20(10), which requires the Department to ensure a person who is required to install an IID as a condition of the person's license or driving privilege to also be a participant in and in compliance with the 24/7 program if the person committed an eligible offense in a participating jurisdiction, unless participation has been excused by court order.

- Amend the rules related to substance abuse evaluation and treatment and the drinking drivers course to reflect the current practice of providers reporting completion to the Department electronically rather than with a paper form. The amendments also clarify that providers of the drinking drivers course are those listed under Iowa Code section 321J.22(2)"a," since community colleges are not the only permitted providers of the drinking drivers course.

- Add a new rule to incorporate the Department's responsibilities relating to the 24/7 program as follows:

- Outline when participation in the 24/7 program will be a condition of a person's license. The person must have committed an eligible offense as defined in Iowa Code section 901D.2(4) in a participating jurisdiction. An eligible first offense means the person has no previous revocation under Iowa Code chapter 321J, and an eligible second or subsequent offense means the person has had a previous revocation under Iowa Code chapter 321J. Participation will not be required if the person obtains a court order excusing the person's participation in the program. In conformance with Iowa Code chapter 901D, the person must also otherwise be eligible for a TRL or a license in order to be required to participate in the 24/7 program, meaning the person must comply with the prerequisites for obtaining a TRL or a license, such as paying outstanding civil penalties, filing SR-22 insurance, passing any required examination and otherwise being physically and mentally capable of operating a motor vehicle safely. The person must also not be under another sanction that would prevent the person from being able to obtain a TRL or license.

- Explain that the duration of participation in the 24/7 program, unless otherwise provided in Iowa Code chapter 901D or Iowa Code section 321J.20, will last as long as the person with an eligible

offense in a participating jurisdiction is required to install and maintain an IID in the person's vehicle. This requirement is consistent with the requirement in Iowa Code section 321J.20(10).

- Clarify that if the Department receives a court order excusing the person's participation in the 24/7 program, the Department will not require participation as a condition of the TRL or license.
- Provide that if the Department receives notification that a participant in the 24/7 program never completed enrollment in the program with the participating jurisdiction, the Department will cancel the license because the person is not entitled to the license if the person does not comply with a condition of the license. Iowa Code section 321.201 authorizes the Department to cancel the license when the Department determines the person was not entitled to issuance of the license.
- Outline what will happen if the Department receives notification of the person's noncompliance with the 24/7 program. Upon receipt of notification of noncompliance pursuant to Iowa Code section 901D.9, the Department will revoke the person's license following existing notice and hearing provisions associated with revoking a person's license. This aligns with the following Iowa Code requirements:
 - ◇ Iowa Code section 321.193 authorizes the Department to impose restrictions on the license and revoke the license upon receiving satisfactory proof that any of the restrictions on the license were violated.
 - ◇ Iowa Code section 901D.9 states that the court may notify the Department of the participant's noncompliance and direct the Department to withdraw the TRL issued to the participant.
 - ◇ Iowa Code section 321J.20(3) requires the Department to revoke the participant's TRL if the person operates a motor vehicle while not in compliance with the 24/7 program.
 - ◇ Iowa Code section 321J.20(10) requires compliance with the 24/7 program as a condition of the person's license or driving privilege.
 - Amend the chapter's implementation sentence to add references to Iowa Code section 321.193, which authorizes the Department to revoke a license when the licensee violates a restriction of the license; Iowa Code section 321.201, which authorizes the Department to cancel a license when the Department determines the person is not entitled to the license; and Iowa Code chapter 901D, which relates to the sobriety and drug monitoring program.

761—620.3(321J) Issuance of temporary restricted license.

620.3(1) Eligibility and application.

a. No change.

b. To apply for a temporary restricted license, an applicant shall, at any time before or during the revocation period, submit application Form 430100 to ~~the office of driver and identification services~~ at the address in 761—620.2(321J). The application form should be furnished by the arresting officer. It may also be obtained upon oral or written request to ~~the office of driver and identification services~~ or by submitting Form 432018 to ~~driver and identification services~~ with the appropriate box checked.

c. No change.

d. A temporary restricted license issued for any purpose may include permission for the licensee to participate in the sobriety and drug monitoring program established pursuant to Iowa Code chapter 901D. For purposes of this chapter, a sobriety and drug monitoring program means the sobriety and drug monitoring program established pursuant to Iowa Code chapter 901D. If the licensee is required to participate in and comply with the sobriety and drug monitoring program as a condition of the license, the licensee shall notify the department of the jurisdiction to which the licensee is reporting in compliance with the program.

620.3(2) and **620.3(3)** No change.

620.3(4) *Issuance and restrictions.*

a. ~~When the application is approved and all requirements are met, the applicant shall be notified by the department to appear before a driver's license examiner. The applicant shall pass the appropriate examination for the type of vehicle to be operated under the temporary restricted license. An Iowa resident shall also pay the reinstatement and license fees. The department shall not issue the temporary restricted license until the application is approved, all requirements are met, the applicable reinstatement and license fees have been paid, and the applicant has passed the appropriate examination for the type of vehicle to be operated under the temporary restricted license.~~

b. No change.

620.3(5) *Denial.* A person who has been denied a temporary restricted license or who contests the restrictions imposed by the department may request an informal settlement conference by submitting a written request to the director of the office of driver and identification services at the address given in 761—620.2(321J). Following an unsuccessful informal settlement or instead of that procedure, the person may request a contested case hearing in accordance with rule 761—620.4(321J).

~~**620.3(6)** *Issuance of temporary restricted license to repeat offender whose driving privilege is revoked under Iowa Code section 321J.4(2).*~~

~~*a.*— It is the opinion of the department that the amendment to Iowa Code section 321J.4(2) by 2009 Iowa Acts, Senate File 419, section 13, was undertaken in response to changes to 23 U.S.C. § 164, “Minimum penalties for repeat offenders for driving while intoxicated or driving under the influence,” effected by the SAFETEA-LU Technical Corrections Act of 2008, Public Law No. 110-244, § 115, 122 Stat. 1572 (June 6, 2008), and that Iowa Code section 321J.4(2) as amended by 2009 Iowa Acts, Senate File 419, section 13, is intended to remain and be interpreted in conformance with the requirements of 23 U.S.C. § 164, including the requirements for restricted driving privileges after 45 days.~~

After the first year of the two-year revocation period, a temporary restricted license issued to a person whose driving privilege is revoked under Iowa Code section 321J.4(2) may permit the person to drive to and from work as well as for any other work purpose when necessary to maintain the person's present employment and may permit the person to transport dependent children to and from a location for child care when that activity is essential to continuation of the person's employment.~~

~~*c.*— All pleadings and orders submitted by the department under Iowa Code section 321J.4(9) in regard to a person whose driving privilege is revoked under Iowa Code section 321J.4(2) will be in accord with the requirements of this subrule, and the department shall enforce any order authorizing the department to issue a temporary restricted license to a person whose driving privilege is revoked under Iowa Code section 321J.4(2) according to the requirements of this subrule.~~

TRANSPORTATION DEPARTMENT[761]

Notice of Intended Action

Proposing rule making related to undercover driver’s licenses and providing an opportunity for public comment

The Department of Transportation hereby proposes to amend Chapter 625, “Driver’s Licenses for Undercover Law Enforcement Officers,” Iowa Administrative Code.

Legal Authority for Rule Making

This rule making is proposed under the authority provided in Iowa Code sections 307.12 and 321.189A.

State or Federal Law Implemented

This rule making implements, in whole or in part, Iowa Code sections 80G.3 and 321.189A and 6 CFR Part 37.

Purpose and Summary

The Department is proposing to update Chapter 625 to incorporate amendments that align with existing legal authority and Department practice and to eliminate outdated or irrelevant requirements or options.

The office name and address are corrected to accurately identify the Bureau of Investigation and Identity Protection as the office responsible for the review associated with the issuance of undercover licenses under this chapter, and the amendments clarify that an investigation of an application for an undercover driver’s license will consist of verification of the applicant’s employment with the sponsoring law enforcement agency and will no longer include a check of a fictitious social security number as those numbers are no longer being used.

The process of issuing a driver’s license to an undercover law enforcement officer is amended to align the rule with the current practice of requiring an applicant to appear at the Motor Vehicle Division headquarters in Ankeny, Iowa, in order to be issued the initial undercover driver’s license; to clarify that the requirements of rule 761—601.5(321), related to proofs submitted with an application, are waived in conformance with the authority in the federal REAL ID regulations in 6 CFR Part 37 for issuance of credentials to undercover law enforcement officers; and to rescind rule 761—625.4(321), relating to renewal of an undercover driver’s license, and move the content of that rule to new subrule 625.3(3). An undercover driver’s license may not be renewed, but a new application may be submitted and, if accepted, the Department may issue a new undercover license for an individual who continues to meet the undercover license criteria.

Finally, the proposed amendments add cross references to Iowa Code section 80G.3, which relates to the confidential treatment of undercover law enforcement records, and to 6 CFR Part 37, which relates to the documentation required for issuance of a credential to undercover law enforcement officers in accordance with the federal REAL ID regulations.

Fiscal Impact

This rule making has no fiscal impact to the State of Iowa.

Jobs Impact

After analysis and review of this rule making, no impact on jobs has been found.

 Title I-80 Dallas County Corridor Preservation

DISCUSSION/BACKGROUND:

In February 2018, a general Corridor Preservation Zone was approved adjacent to I-80 between Veterans Memorial Drive interchange (Van Meter) to the Grand Prairie Parkway interchange. This area is experiencing increased development. This corridor preservation zone was implemented and subsequent to this action, additional development pressure has taken place further west in the vicinity of the DeSoto interchange.

Expansion of capacity in this area is consistent with the department’s long-term vision for Interstate 80 and a corridor preservation zone will assist in ensuring appropriate coordination with local public agencies and developers as development occurs throughout the corridor, ensuring consistency with the long-term plans for I-80.

The area of the proposed Corridor Preservation Zone for Dallas County is shown in blue on the attached aerial display with the existing Corridor Preservation Zone circled in yellow and the proposed expansion area circled in orange. Procedures per Iowa Code 306.19 will be followed and if a decision is made to acquire property under the Corridor Preservation Zone, the DOT will use Emergency and Contingency Funds in the transportation improvement program or funds that are programmed for project right-of-way acquisition. Commission approval of the Corridor Preservation Zone will provide condemnation authority for this area to the DOT.

PROPOSAL/ACTION RECOMMENDATION:

It is recommended the Commission approve the expansion of the Corridor Preservation Zone on I-80 in Dallas County between Veterans Memorial Drive interchange (Van Meter) to the Grand Prairie Parkway interchange to include portions further West between Veteran’s Memorial interchange (Van Meter) to the DeSoto interchange.

 Title US 63 Mahaska County Corridor Preservation

DISCUSSION/BACKGROUND:

Iowa DOT is developing an overall improvement strategy for U.S. 63 bypassing Oskaloosa. The strategy will improve safety and traffic operations along the existing route through town, sending freight traffic more directly to Iowa 163, in lieu of a circuitous route through Oskaloosa.

There is potential for development pressure throughout the corridor, but this potential is higher near the proposed interchange location between Iowa 163 and U.S. 63 west of Oskaloosa. The location of this interchange is somewhat inflexible due to gas lines and an airport in the vicinity of the project area.

Per Iowa Code 306.19, the DOT may implement corridor preservation. Procedures include notifying a city or county of the area subject to corridor preservation, notifying adjacent property owners and publishing a map of the proposed area. Then, with any application for a building permit, subdivision plat or zoning change within the corridor preservation zone, the city or county must notify the DOT. The DOT has 30 days to review the application. If the decision to acquire the affected property is made, the DOT will notify the city or county and begin negotiations with the property owner.

The area of the proposed Corridor Preservation Zone for Mahaska County is shown on the attached aerial display encompassed in red. Procedures per Iowa Code 306.19 will be followed and if a decision is made to acquire property under the Corridor Preservation Zone, the DOT will use Emergency and Contingency Funds in the transportation improvement program or funds that are programmed for project right-of-way acquisition. Commission approval of the Corridor Preservation Zone will provide condemnation authority for this area to the DOT.

PROPOSAL/ACTION RECOMMENDATION:

It is recommended the Commission approve a Corridor Preservation Zone encompassing the proposed relocation of U.S. 63 north and west of Oskaloosa in Mahaska County between 200th Street north of Oskaloosa to Iowa 163 west of Oskaloosa.

 - 500-999 acres; up to 65 percent RISE participation
 - 1,000 acres or more; up to 70 percent RISE participation
- A funding commitment may be considered by the Commission following receipt and review of an application for RISE funding. Final details of RISE project scope and maximum RISE award dollar amount will be finalized and brought for consideration by the Commission as a modification to the RISE award once determined through further discussion between the applicant and Iowa DOT staff.
- Projects awarded RISE Local Development assistance may be modified in the event that a business location decision is imminent. Following submission of the necessary information, the roadway project may be converted at the Commission's discretion to a more typical RISE Immediate Opportunity project qualifying for up to 80 percent RISE participation.
- A RISE Local Development funding commitment for a Certified Site under these policies will expire according to the same schedule as the certification of the site expires through the IEDA Certified Sites program.

University Research Park RISE Local Development applications

- RISE participation held to 70 percent of eligible project costs

- Project monitoring will be accomplished through the submission of annual reports by the research park documenting business development and job creation in the park and the relocation of businesses and jobs to other locations in Iowa.

Double access issue

- Interpretation has been to not fund RISE projects that create more than one access unless necessary to support additional entrances to a business or the project is the last link in the street/highway network. RISE funding will not be provided for more than one access unless necessary to support RISE-eligible development or where necessary to support an IEDA designated Certified Site.

Loan interest rate

- RISE loan installment payments calculated using an interest rate between zero percent and the 10-year U.S. Treasury bond rate based on the quality of the RISE project.

Addition of RISE funding to a previously awarded project

- Allow the addition of RISE funding by Iowa Transportation Commission approval if the road construction has not started yet or the RISE-supported company construction has not been completed.

Roads/streets previously improved with RISE funding

- Additional funding for previously RISE-funded projects not allowed. However, new projects for capacity improvements necessary to support immediate job creation decision will be considered.
