

# Filling out a Notice of Intent

## **PERMIT INFORMATION**

Check Permit No. 2 (already checked in EnhancedPublicNoticeAndNoticeOfIntentForms.xlsx).

## **NPDES PERMIT FEE OPTIONS**

Leave this blank.

## **FACILITY OR PROJECT INFORMATION**

**Name:** Project Number (NHSX-34-8(96)—3H-51) or multiple projects (78, 93, 94, 95, 96) or Project Name Fairfield Bypass

**Address/Location of Site:** (a general description of the project location), for example, Highway 34 from the West side of Fairfield around the South side and then to the East side of Fairfield.

**City:** If the project is within the city limits, list the city. If not, leave it blank.

**County:** List the county.

**State:** Iowa.

## **CONTACT INFORMATION**

Check the box for "State" (already checked in EnhancedPublicNoticeAndNoticeOfIntentForms.xlsx) and the rest will be filled out later.

## **FACILITY LOCATION OR LOCATION OF CONSTRUCTION SITE**

If there are not too many sections in the same township and range, list them all.

If it is a long project, list the beginning point and the end point.

## **OWNER INFORMATION**

(already filled in for the EnhancedPublicNoticeAndNoticeOfIntentForms.xlsx)

Iowa Department of Transportation, Office of Construction  
800 Lincoln Way  
Ames, Iowa 50010  
515-239-1280

## **OUTFALL INFORMATION**

**Discharge Starting Date:** List the letting date.

**Is any storm water.....:** Check "NO" (already checked in EnhancedPublicNoticeAndNoticeOfIntentForms.xlsx).

**Receiving Water(s):** List the names of drainage ditches, creeks and then first river.

**Compliance With The Following Conditions:** Check all the "Yes" (already checked in EnhancedPublicNoticeAndNoticeOfIntentForms.xlsx).

**GENERAL PERMIT NO.2.....**

**Description of Project:** General description of the project(s). For example, the construction of a new 4-lane divided highway around the City of Fairfield.

**Number of Acres of Disturbed Soil:** List the number of acres.

**Estimated Timetable:** The time table will be from the beginning to the end when the vegetation is established. Thus for a grading project, there will be other projects following the grading, i.e.: paving, erosion control, etc.

**CERTIFICATION**

Please have your engineer review, sign, and date the NOI.

**Important Points to keep in Mind**

- Combine as many projects together as possible if they are close together but may be let separately.
- Extend the limits to cover projects that may be let later in the same area.
- Use common sense.
- Ask questions if needed.
- Check and recheck the work.
