Subject: Iowa DOT Building Security

Please forward the following message to those who visit the Iowa DOT.

Effective April 2, 2008, the Iowa DOT is implementing some building security changes. These changes are being made to provide as safe a work environment as possible for DOT employees and a safe environment for visitors who have business to conduct with the department.

Included with this email is an access map of the central complex. Visitors will be able to access the DOT at one of the following public entrances:

- Main entrance of the Administration Building
- West entrance of the North Annex for Right of Way and Traffic & Safety
- District 1 main entrance of district operations

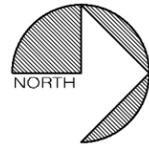

If visitors will only be visiting the Repair Shop, Sign Shop, Communications (Bldg. 6), Conference Center, or the Warehouse, they may go directly to those locations rather than to one of the three public entrances listed above.

We appreciate your understanding and cooperation as these new procedures are implemented. If you have any questions about the changes, please contact the Office of Facilities Support at 515-239-1299.

Jason M. Holst, P.E.
