

# CS Sheets

Design Manual  
Chapter 1  
General Information  
Originally Issued: 12-19-12

The CS sheets generally contain soil quantities information.

## Contents of the CS Sheets

The CS sheets will typically contain some or all of the following tabulations:

- [103-1](#) Embankment with Moisture and Density Control
- [103-3](#) Proposed Subgrade Treatment
- [103-5](#) Settlement Plates
- [103-6](#) Embankment with Moisture Control
- [103-7](#) Shrinkage Data
- [104-5C](#) List of Subdrain Work
- [104-9](#) Longitudinal Subdrain Shoulder and Backslope
- [107-25](#) Rock Splitting
- [107-31](#) Plowing and Shaping

## Sample C Sheets

Click the following link to view a sample CS sheet:

## Plan Quality Checklist

### Tabs

Tabs (see Section [20J-61](#)) for similar work items should be grouped.

### Index of Tabulations on C Sheets

Spot check that page numbers are accurate and that all tabs in the CS Sheets are included on the Index of Tabulations list in the C Sheets.

### Tabulations

- Are all appropriate tabulations included?
- Are all of the tabulations the current version?
- Do the totals on the tabulations match the bid totals on C.1?
- Do the quantities seem reasonable?
- Have sufficient blank lines been included for additional items for the as-built plan?
