
Bidding Mobilizations for Erosion Control

Design Manual

Chapter 1

Chapter Title

Originally Issued: 09-13-12

Revised: 02-23-17

Articles [2602.03. L and M](#) of the Standard Specifications explain when the bid items **Mobilizations, Erosion Control** and **Mobilizations, Emergency Erosion Control** are used. Essentially, if a project requires a PPP, include a mobilization for erosion control and another for emergency erosion control.

Bid a quantity of 1 for each of the erosion control mobilization items. For tied projects, bid a quantity of 1 for each of the erosion control mobilization items for each individual project. For multi-project contracts with overlapping or contiguous project limits, bid a quantity of 1 for each of the erosion control mobilization items.

Chronology of Changes to Design Manual Section:

001G-005 Bidding Mobilizations for Erosion Control

2/23/2017	Revised Revised to line up with specification change that only one mobilization will be paid for multi-projects with overlapping or contiguous project limits.
3/31/2016	Revised Clarified if a project has a PPP, it also needs bid items for mobilization for erosion control and mobilization for emergency erosion control.
1/7/2016	Revised Clarify that for tied projects, bid one mobilization for each of the mobilization items for each of the projects.
5/15/2014	Revised Revised to eliminate language already in the specifications.
9/13/2012	NEW New
5/3/2010	VOID
