This command will “sink” most dialog boxes below, (behind), all open MicroStation window (views). Double-clicking the Sink/Restore command a second time will restore the dialogs to their original positional status (ie: brings them back to the “top” of the opened views).

The Sink/Restore Dialogs command is accessed from Geopak: D&C Manager, as shown below. (If the item is not found as shown below, use the D&C > Edit > Find tool to locate it.)
