

2603  
08-30-88

**TYPICAL CROSS SECTION  
GRADING and SHOULDERING**

Notes:  
Section may be modified only as directed by the engineer through areas of special shaping, superelevation, curves, etc. Refer to other plans and drawings for details of ditches and backslopes.

① See other typicals for shoulder details.

| LOCATION            |                    | FS |
|---------------------|--------------------|----|
| ROAD IDENTIFICATION | STATION TO STATION |    |
|                     |                    |    |
|                     |                    |    |
|                     |                    |    |
