New Flyover Ramp Opening Soon!

Weather permitting, the existing I-380 southbound to I-80 eastbound loop will be closing permanently, and the new I-380 southbound to I-80 eastbound flyover ramp will be open to drivers beginning **Friday morning, August 19**. Drivers on I-380 southbound will be utilizing a new, elevated bridge as they head to I-80 eastbound.
With the opening of the new ramp, drivers should be prepared for the following changes to the interchange:

- The flyover ramp is longer than the previous loop-style ramp, so the exit point has shifted. Drivers needing to take Exit 0A to I-80 eastbound should look for the exit point approximately ½ mile earlier than previously expected.
- This exit point shift means that the exit for I-80 eastbound (toward Iowa City) will now occur before the exit for I-80 westbound (toward Des Moines).

Be sure to pay attention to all interstate signs, be conscientious of other drivers, stay alert, and be aware of your surroundings while adjusting to the new ramp and shifted exit points.

The opening of this ramp is a major accomplishment for the project. This is the last of the old loop-style ramps to be closed within the interchange, and the second major flyover ramp to open.
Did you miss the new exit for the I-380 Southbound to I-80 Eastbound Ramp? Don’t worry! You can either utilize Exit 0B to detour to Ireland Avenue (Exit 237), or detour to Melrose Avenue (Exit 93) to turn around. See the map below for details.

To help facilitate the opening of this ramp, please expect the following overnight closure:
Weather permitting, the U.S. 218 northbound to I-80 eastbound ramp will be closed Tuesday, August 16, at 10:00 PM through Wednesday, August 17 at 6:00 AM. Traffic will be detoured to Exit 2, Forevergreen Road. See the map provided below for detour details.

During construction, all closures are subject to change at any time. The latest traveler information is available anytime through our 511 system.
