

FY 2022 Applications for Revolving Loan and Grant Program Railroad

<https://iowadot.gov/iowarail/financial-assistance/rrlgp>

Project Name	County	Location	Applicant	Type of Application
Project MG Connecting Track	Clinton	Clinton, Iowa	Project MG	Targeted Job Creation
	Project Description:	Company is building a plant to convert locally produced agricultural feedstock into renewable fuels. The rail facilities improvement will connect the plant to UP railroad. Project is expected to create 50 new jobs.		
Charles City Terminal	Floyd	Charles City, Iowa	Charles City Rail Terminal, LLC	Targeted Job Creation
	Project Description:	The proposed project will re-purpose the former Oliver/White Tractor Manufacturing plant site as a railcar-truck transload center for transshipment of propane, bio-renewables, and specialized fuels through connections with both CP and CN railroads. Project is expected to create 20-25 new jobs.		
Project Peony	Woodbury	Sioux City, Iowa	City of Sioux City	Targeted Job Creation
	Project Description:	Project is adding a switch and 15,750-foot rail spur to the planned industrial facility connecting it to the railroad network. Project is expected to create 180 new jobs.		
CP Unit Train Expansion	Clayton	Clayton, Iowa	Pattison Sand Company	Targeted Job Creation
	Project Description:	Addition of another 30 rail car spots as part of their long-term expansion plans. 15 jobs will be retained, 35 jobs will be created.		
Ten D/Merchants Railport Expansion and Upgrades	Polk	Des Moines, Iowa	Ten D/Merchants Distribution Service	Rail Network Improvement
	Project Description:	Project will add more than a mile of new rail and replace/upgrade/make accessible more than 1.5 miles of existing rail; and add additional transloading service capacities and capabilities.		
Boone & Scenic Valley Railroad Expansion and Upgrade	Boone	Boone, Iowa	Boone & Scenic Valley Railroad	Rail Network Improvement

	Project Description:	Remove and replace failing ties throughout and construct a new siding track to provide for additional storage and switching capabilities.		
Oskaloosa Industrial Park Transload Facility	Mahaska	Oskaloosa, Iowa	Mahaska Chamber and Development Group	Planning Study
	Project Description:	This planning study is looking at developing 29 acres of land near Oskaloosa into a railport/transload facility. The concept includes almost three miles of track and the potential of a diverse array of storage and transload capabilities.		
East Polk County Industrial Park*	Polk	Mitchellville, Iowa	Ten D/Merchants Distribution Service	Planning Study
	Project Description:	Purpose of study is to plan for future rail service on the East Polk County Industrial Park site (plus, potentially, on adjacent properties) as a railport, wind energy equipment distribution center, and a potential inland port.		

*Note: This project is not recommended for funding.
