

**Revitalize Iowa's Sound Economy (RISE) Policies**  
**Effective October 8, 2024, Iowa Transportation Commission Business Meeting**

Annual laborshed wage rate

- A company's ability to meet 100 percent of the annual laborshed rate for their area will be used to assist in determining RISE participation.

Project Completion Settlement Process

- First 50 percent of RISE funding not subject to settlement calculation.
- Settlement prorated against RISE funding beyond first 50 percent.
- In evaluating job contingency requirements, consideration will be given to jobs created from a different company that locates at the site of the original RISE-supported development. These jobs are subject to the same monitoring period as the original RISE development and will be evaluated based on wage rate, benefits and other RISE eligibility requirements.
- If at least 90 percent of the job creation and/or retention contingency is met at the wage rate established at the time of project approval, the project is considered substantially complete.
- Settlement installment payments calculated based on the prime interest rate minus 3 percent.

Monitoring process

- In monitoring job contingency requirements, initial payroll is required to establish baseline data.
- Three years after the roadway is open to traffic, the job creation and/or retention along with the wage rate contingencies must be met. Review and calculate average number of jobs created and/or retained using payrolls from the beginning and end of any six-month period from the time funding is awarded to three years after the RISE infrastructure improvement is complete.
- Submittal of documentation in cases of job turnover for establishing compliance with agreement contingency is allowable.

RISE cost per job increase

- \$14,000 per job maximum.

Local development funding

- Funding used for speculative RISE-eligible (nonretail) development.
- RISE participation held to 50 percent of eligible project costs.

Iowa's Certified Sites Program (IEDA) RISE Local Development applications

- Maximum RISE participation awarded is variable depending on the acreage of the Certified Site:
  - 50-499 acres; up to 60 percent RISE participation
  - 500-999 acres; up to 65 percent RISE participation
  - 1,000 acres or more; up to 70 percent RISE participation
- A funding commitment may be considered by the Commission following receipt and review of an application for RISE funding. Final details of RISE project scope and maximum RISE award dollar amount will be finalized and brought for consideration by the Commission as a modification to the RISE award once determined through further discussion between the applicant and Iowa DOT staff.
- Projects awarded RISE Local Development assistance may be modified in the event that a business location decision is imminent. Following submission of the necessary information, the roadway project may be converted at the Commission's discretion to a more typical RISE Immediate Opportunity project qualifying for up to 80 percent RISE participation.
- A RISE Local Development funding commitment for a Certified Site under these policies will expire according to the same schedule as the certification of the site expires through the IEDA Certified Sites program.

Transportation Facilities

- Interpretation that transportation facilities, such as regional airports, can be seen as an economic unit. In order to be eligible, the project sponsor would need to provide documentation that the transportation facility is an economic unit. At a minimum the project sponsor would submit:

1. How the facility is a critical link to the overall transportation system in the area.
  2. Documentation from area businesses that state an expansion and/or continued growth is a direct result of the transportation facility. Supporting documentation should include jobs created/retained, average wages and other specific details on what and when the growth is for that business. Businesses providing documentation must be a RISE eligible development in order to be considered.
  3. Documentation that the business concerns/decisions hinge on the facility and the access. Businesses providing documentation must be a RISE eligible development in order to be considered.
- Agreement would not be contingent on jobs but follow typical Local Development procedures.

#### University Research Park RISE Local Development applications

- RISE participation held to 70 percent of eligible project costs
- Project monitoring will be accomplished through the submission of annual reports by the research park documenting business development and job creation in the park, the relocation of businesses and jobs to other locations in Iowa, and use of interns.

#### Business Relocation & Job Retention RISE Local Development applications

- Purpose is to retain jobs, sustain local business through relocation within the community, stimulate investment, promote future growth, and preserve the economic viability of the community.
- Eligible communities must satisfy all of the following:
  1. Be located within a county that has been included in a proclamation of disaster emergency by the Governor, and
  2. Be located within a county that has been included in a Presidential Disaster Declaration within the last 12 months, and
  3. Provide evidence that damage sustained by the community negatively affected existing businesses which require permanent relocation within the community to continue operation.
- Applications must include both:
  1. Letters of interest from area businesses considering permanent relocation within the community due to impacts of the disaster so that they can continue operation.
  2. Letters of support for the project from other area businesses describing how the project will sustain the local economy and positively impact their business.
- RISE participation held to 70 percent of eligible project costs
- In addition to submission of an Accomplishment Report, reporting on other RISE-eligible job creation or retention in the community is required.

#### Double access issue

- Interpretation has been to not fund RISE projects that create more than one access unless necessary to support additional entrances to a business or the project is the last link in the street/highway network. RISE funding will not be provided for more than one access unless necessary to support RISE-eligible development or where necessary to support an IEDA designated Certified Site.

#### Loan interest rate

- RISE loan installment payments calculated using an interest rate between zero percent and the 10-year U.S. Treasury bond rate based on the quality of the RISE project.

#### Addition of RISE funding to a previously awarded project

- Allow the addition of RISE funding by Iowa Transportation Commission approval if the road construction has not started yet or the RISE-supported company construction has not been completed.

#### Roads/streets previously improved with RISE funding

- Additional funding for previously RISE-funded projects not allowed. However, new projects for capacity improvements necessary to support immediate job creation decision will be considered.

#### Commission and Delegation Input

- Commission will be provided RISE application background material the Tuesday before the workshop and business meetings. If a Commissioner has a question or would like additional information prior to the workshop, they will send the request to the Office of Systems Planning by 5:00 pm on the Thursday before the workshop and business meetings. The Office of Systems Planning will provide a response to all of the Commissioners by 5:00 pm the following day.
- While no delegation input is required at the workshop or the business meeting, delegations will be informed that they are welcome to attend either or both meetings (as is all of the public). In addition, the delegations will be informed that their presence at the workshop may be beneficial if the Commission has any questions about the project.
