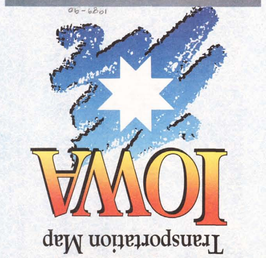
AN IOWA TRAVELER'S COMPANION



W E L C O M E

Dear Traveler,

Welcome to Iowa — the rolling land between the mighty Mississippi and the wide Missouri, where there is more to see and do than you ever imagined. Iowa is alive with celebrations, history, hospitality, festivals, fairs and fun.

Let this map be a starting place for your travels through our state. Visit Iowa's cities where the first-rate shopping, fine dining and exciting attractions make any stay a vacation. Then explore the scenic countryside and small towns that reflect the genuine personality of America's heartland.

As you travel, visit Iowa's Welcome Centers. They're as diverse as the state's many attractions and offer valuable maps and brochures that will help make your Iowa trip even more memorable.

And remember wherever you travel, whatever you do, friendly Iowans welcome you.

HISTORIC HIGHWAY MAP TRANSPORTATION HISTORY BOOK

This map shows the present transportation system in Iowa. If you would like to know the history of this system, the Iowa Department of Transportation has additional material you may find interesting.

Many of today's highways follow the approximate routes used by the settlers of the state. In the early 1900s the main routes were given names rather than the numbers now used. The names of more than 60 of these early highways were registered with the Iowa State Highway Commission from 1914 through 1925. These pioneer roadways are shown on a colorful map, which uses the present-day transportation map as a background to show how the old highways formed the basis of today's highway system.

For a more detailed description, the Iowa Department of Transportation also will have available in 1988 a book, "Transportation in Iowa; A Historical Summary." Written by William H. Thompson, Iowa State University professor emeritus and an internationally recognized transportation authority, the book traces the development of transportation in Iowa from the territorial days to the mid-1980s. In the chronology, Thompson details the influence state and federal legislation had on transportation in Iowa. More than 140 illustrations bring the text to life in a fascinating book that will be a prize possession for anyone interested in the history of Iowa.

For further information about the book or map, or to obtain order forms, contact the Iowa Department of Transportation, Bureau of Policy and Information, 800 Lincoln Way, Ames, IA 50010, telephone (515) 239-1372.

TRUCK PERMITS AND MOTOR VEHICLES - A 24-hour truck permit center is located at 5238 N.W. 2nd Ave., Des Moines, Ia., 50313, just north of Interstate 80. Instant service is available on reciprocity, trip, over dimension, overweight permits and fuel permit applications for Iowa and other states. Call 515-237-3264. For information on driver licenses, motor vehicle registration and inspection, call toll free 1-800-532-1121, in Iowa.

LOGO SIGNING

Iowa has established a logo signing program to aid motorists in identifying services along the Interstate and Freeway Primary Systems. The greatest required travel distance for a particular service is displayed under the directional arrow on the logo panel on the exit ramp. No mileage is displayed if all participating business are within one mile of the signed route. As you travel look for this Logo Signing.

DETOUR MAP

The highways shown on this Transportation Map allow you, the traveler, to get to your destination quickly and safely. However, repairs must be made to keep these routes safe and efficient. Therefore, you may encounter road maintenance or repair operations that could affect your travel.

To allow you to plan a route that would avoid areas where highways are being worked on, the Iowa Department of Transportation publishes the "Iowa Detour and Road Embargo Map." This map shows which roads are being worked on; where traffic is restricted; roads closed, and the approximate route of the detour or alternate route; and which roads are restricted to vehicles weighing less than the maximum allowable limits. The detour map is published biweekly from March through December.

For truck and bus operators, there is also an "Iowa Bridge Embargo Map" which shows the bridges restricted to weights less than the maximum limits.

For more information about these maps, or to obtain single copies or a year's subscription, contact the Office of Maintenance, Iowa Department of Transportation, 800 Lincoln Way, Ames, IA 50010, telephone (515) 239-1197.

TAKE A SECOND AND DEVELOP A LIFETIME HABIT

We hope you are among the growing number of motorists who are complying with Iowa's Safety Belt and Child Safety Seat Laws. During the first year Iowa's Safety Belt Law was in effect 157 men, women and children survived life-threatening crashes because they were buckled up. Iowa's life-saving Safety Belt and Child Safety Seat Laws are working. Make them work for you.

Buckle Up For Life
It's Our Law

BICYCLISTS share Iowa's roadways with other vehicles. They have all the rights and duties applicable to drivers of motor vehicles. Head lamp and rear reflectors are required for night operation. Iowa's extensive paved county road system, local city street and special bicycle paths provide excellent route selection for the bicyclists. Bicycling the rolling Iowa countryside is fun and energy-efficient. Motorists, please have patience and share the roadway safely with your fellow taxpayer.

MILEPOSTS

Mileposts, installed at one-mile intervals along Iowa's rural primary highways, aid motorists and traffic officers in accurately locating and reporting accidents or emergencies. The markers may also be used by motorists for trip reference. Iowa's interstate interchanges are now referenced on the map by these mileposts. The milepost numbers begin at the south and west state line or route origin.
