**Purpose:** This report contains Single Trailer 5-Axle Truck data collected from over ten Weigh-in-Motion sites to report how truck traffic trends have changed since Friday March 13, 2020.

### Average Weekly Single Trailer 5-Axle Truck Counts

- March 13 to 19: 5%
- March 20 to 26: 5%
- March 27 to April 2: 4%
- April 3 to 9: 1%
- April 10 to 16: 1%
- April 17 to 23: 1%
- April 24 to 30: 1%
- May 1 to 7: 1%

**Report Notes:**
- Due to the limited Weigh-in-Motion Sites in the sample, a comparison to the average weekly count of the 4 weeks prior to March 13th was done rather than a 2019 to 2020 comparison, as was done for the total traffic data noted above.
- A correction was made changing the previously reported 3% to 5%.
- Report example, Single Trailer 5-Axle Trucks increased 5 percent over the previous month during the first week of COVID-19.
