</table>

Report Notes:
*Due to the limited Weigh-in-Motion Sites in the sample, a comparison to the average weekly count of the 4 weeks prior to March 13th was done rather than a 2019 to 2020 comparison, as was done for the total traffic data noted above.
**A correction was made changing the previously reported 3% to 5%.
• Report example, Single Trailer 5-Axle Trucks increased 5 percent over the previous month during the first week of COVID-19.
