**Purpose:** This report contains traffic data collected from over 120 Continuous Count Sites to report how traffic trends have changed since Friday March 13, 2020.

![Traffic Trend Change During the COVID-19 Period](chart)

**Report Notes:**
- This report compares Iowa’s various road system traffic changes to the same day of the week from last year (for example, the third week of March 2019 is compared to the third week of March 2020).
- Additional information on traffic reporting can be found at: [https://iowadot.gov/maps/Data/AUTOMATIC-TRAFFIC-RECORDER-REPORTS](https://iowadot.gov/maps/Data/AUTOMATIC-TRAFFIC-RECORDER-REPORTS)

**Average Weekly Single Trailer 5-Axle Truck Counts**

<td>0%</td>
<td></td>
</tr>
</tbody>
</table>

**Report Notes:**
- Due to the limited Weigh-in-Motion Sites in the sample, a comparison to the average weekly count of the 4 weeks prior to March 13th was done rather than a 2019 to 2020 comparison, as was done for the total traffic data noted above.
- A correction was made changing the previously reported 3% to 5%.
- Report example, Single Trailer 5-Axle Trucks increased 5 percent over the previous month during the first week of COVID-19.
