Purpose: This report contains Single Trailer 5-Axle Truck data collected from over ten Weigh-in-Motion sites to report how truck traffic trends have changed since Friday March 13, 2020.

	March 13th to	March 20th	March 27th	April 3rd to	April 10th to	April 17th to	April 24th to	May 1st to
	19th	to 26th**	to April 2nd	9th	16th	23rd	30th	7th
Weigh-in-Motion Sites	5%	5%	4%	1%	-10%	-1%	0%	

Report Notes:

*Due to the limited Weigh-in-Motion Sites in the sample, a comparison to the average weekly count of the 4 weeks prior to March 13th was done rather than a 2019 to 2020 comparison, as was done for the total traffic data noted above.

**A correction was made changing the previously reported 3% to 5%.

• Report example, Single Trailer 5-Axle Trucks increased 5 percent over the previous month during the first week of COVID-19.
