Submitted by Gary Harris Phone No. 515-239-1459 Meeting Date October 8, 2024
Title Corridor Preservation Zone: Iowa 12 Gordon Drive Viaduct in Sioux City

DISCUSSION/BACKGROUND:

At the August 13, 2024, Commission meeting, the Commission approved the renewal of a corridor preservation zone along the Iowa 12/Gordon Drive Viaduct in Sioux City. However, the map attached to the August 12, 2024, Commission Order did not fully reflect the additional necessary corridor preservation zone coverage that has been identified through recently completed preliminary design. Therefore, Commission action is requested to approve the designation of a corridor preservation zone as described below and shown on the attachment.

The corridor preservation zone area for the Iowa 12/Gordon Drive Viaduct project is from Virginia Street to Rustin Street, in Sioux City, Iowa. Width of the corridor preservation zone varies depending upon the location within the corridor. Development adjacent to the Gordon Drive Viaduct is increasing and there are several areas that have high potential for growth in the near future.

If a decision is made to acquire property within the corridor preservation zone, the Iowa Department of Transportation will use emergency and contingency funds in the Five-Year Program or funds that are programmed for project right of way acquisition. Commission approval to renew this corridor preservation allows us to receive notice of intended development of property within the proposed right-of-way and gives us the opportunity to take action to acquire it before the development occurs.

PROPOSAL/ACTION RECOMMENDATION:

It is recommended the Commission approve the corridor preservation zone along the Iowa 12/Gordon Drive Viaduct from Virginia Street to Rustin Street, in Sioux City, Iowa as shown on the attachment.

Title Revitalize Iowa's Sound Economy (RISE) Policies

DISCUSSION/BACKGROUND:

Policies used to evaluate and administer RISE projects have been reviewed by department staff. The attached document describes those policies. Changes to the RISE policies will take effect on RISE projects approved by the Commission in October 2024 or later.

PROPOSAL/ACTION RECOMMENDATION:

It is recommended the Commission approve the attached RISE policies.

Revitalize Iowa's Sound Economy (RISE) Policies
Effective October 8, 2024, Iowa Transportation Commission Business Meeting

Annual laborshed wage rate

- A company's ability to meet 100 percent of the annual laborshed rate for their area will be used to assist in determining RISE participation.

Project Completion Settlement Process

- First 50 percent of RISE funding not subject to settlement calculation.
- Settlement prorated against RISE funding beyond first 50 percent.
- In evaluating job contingency requirements, consideration will be given to jobs created from a different company that locates at the site of the original RISE-supported development. These jobs are subject to the same monitoring period as the original RISE development and will be evaluated based on wage rate, benefits and other RISE eligibility requirements.
- If at least 90 percent of the job creation and/or retention contingency is met at the wage rate established at the time of project approval, the project is considered substantially complete.
- Settlement installment payments calculated based on the prime interest rate minus 3 percent.

Monitoring process

- In monitoring job contingency requirements, initial payroll is required to establish baseline data.
- Three years after the roadway is open to traffic, the job creation and/or retention along with the wage rate contingencies must be met. Review and calculate average number of jobs created and/or retained using payrolls from the beginning and end of any six-month period from the time funding is awarded to three years after the RISE infrastructure improvement is complete.
- Submittal of documentation in cases of job turnover for establishing compliance with agreement contingency is allowable.

RISE cost per job increase

- \$14,000 per job maximum.

Local development funding

- Funding used for speculative RISE-eligible (nonretail) development.
- RISE participation held to 50 percent of eligible project costs.

Iowa's Certified Sites Program (IEDA) RISE Local Development applications

- Maximum RISE participation awarded is variable depending on the acreage of the Certified Site:
 - 50-499 acres; up to 60 percent RISE participation
 - 500-999 acres; up to 65 percent RISE participation
 - 1,000 acres or more; up to 70 percent RISE participation
- A funding commitment may be considered by the Commission following receipt and review of an application for RISE funding. Final details of RISE project scope and maximum RISE award dollar amount will be finalized and brought for consideration by the Commission as a modification to the RISE award once determined through further discussion between the applicant and Iowa DOT staff.
- Projects awarded RISE Local Development assistance may be modified in the event that a business location decision is imminent. Following submission of the necessary information, the roadway project may be converted at the Commission's discretion to a more typical RISE Immediate Opportunity project qualifying for up to 80 percent RISE participation.
- A RISE Local Development funding commitment for a Certified Site under these policies will expire according to the same schedule as the certification of the site expires through the IEDA Certified Sites program.

Transportation Facilities

- Interpretation that transportation facilities, such as regional airports, can be seen as an economic unit. In order to be eligible, the project sponsor would need to provide documentation that the transportation facility is an economic unit. At a minimum the project sponsor would submit:

1. How the facility is a critical link to the overall transportation system in the area.
 2. Documentation from area businesses that state an expansion and/or continued growth is a direct result of the transportation facility. Supporting documentation should include jobs created/retained, average wages and other specific details on what and when the growth is for that business. Businesses providing documentation must be a RISE eligible development in order to be considered.
 3. Documentation that the business concerns/decisions hinge on the facility and the access. Businesses providing documentation must be a RISE eligible development in order to be considered.
- Agreement would not be contingent on jobs but follow typical Local Development procedures.

University Research Park RISE Local Development applications

- RISE participation held to 70 percent of eligible project costs
- Project monitoring will be accomplished through the submission of annual reports by the research park documenting business development and job creation in the park, the relocation of businesses and jobs to other locations in Iowa, and use of interns.

Business Relocation & Job Retention RISE Local Development applications

- Purpose is to retain jobs, sustain local business through relocation within the community, stimulate investment, promote future growth, and preserve the economic viability of the community.
- Eligible communities must satisfy all of the following:
 1. Be located within a county that has been included in a proclamation of disaster emergency by the Governor, and
 2. Be located within a county that has been included in a Presidential Disaster Declaration within the last 12 months, and
 3. Provide evidence that damage sustained by the community negatively affected existing businesses which require permanent relocation within the community to continue operation.
- Applications must include both:
 1. Letters of interest from area businesses considering permanent relocation within the community due to impacts of the disaster so that they can continue operation.
 2. Letters of support for the project from other area businesses describing how the project will sustain the local economy and positively impact their business.
- RISE participation held to 70 percent of eligible project costs
- In addition to submission of an Accomplishment Report, reporting on other RISE-eligible job creation or retention in the community is required.

Double access issue

- Interpretation has been to not fund RISE projects that create more than one access unless necessary to support additional entrances to a business or the project is the last link in the street/highway network. RISE funding will not be provided for more than one access unless necessary to support RISE-eligible development or where necessary to support an IEDA designated Certified Site.

Loan interest rate

- RISE loan installment payments calculated using an interest rate between zero percent and the 10-year U.S. Treasury bond rate based on the quality of the RISE project.

Addition of RISE funding to a previously awarded project

- Allow the addition of RISE funding by Iowa Transportation Commission approval if the road construction has not started yet or the RISE-supported company construction has not been completed.

Roads/streets previously improved with RISE funding

- Additional funding for previously RISE-funded projects not allowed. However, new projects for capacity improvements necessary to support immediate job creation decision will be considered.

Commission and Delegation Input

- Commission will be provided RISE application background material the Tuesday before the workshop and business meetings. If a Commissioner has a question or would like additional information prior to the workshop, they will send the request to the Office of Systems Planning by 5:00 pm on the Thursday before the workshop and business meetings. The Office of Systems Planning will provide a response to all of the Commissioners by 5:00 pm the following day.
- While no delegation input is required at the workshop or the business meeting, delegations will be informed that they are welcome to attend either or both meetings (as is all of the public). In addition, the delegations will be informed that their presence at the workshop may be beneficial if the Commission has any questions about the project.

DEPARTMENT OF TRANSPORTATION
COMMISSION ORDER

Transportation Development Division
Division/Bureau/Office Local Systems Bureau Order No. TD-2025-20
Submitted by Debra Arp Phone No. 515-239-1681 Meeting Date October 8, 2024
Title Revitalize Iowa's Sound Economy (RISE) Application – Rock Valley

DISCUSSION/BACKGROUND:

The city of Rock Valley submitted a RISE Business Relocation & Job Retention Local Development application in the September 2024 round requesting a grant to assist in construction of approximately 2,570 feet of Summit Drive and 541 feet of Tower Road located on the east side of town.

This project is necessary to provide access to 14 lots totaling approximately 25 acres. This project is anticipated to be completed by July 2025.

The evaluation and rating for the project will be discussed.

PROPOSAL/ACTION RECOMMENDATION:

It is recommended the Commission, based on the capital investment commitment and potential for future job creation, award a RISE grant of \$1,482,758 or up to 70 percent of the total RISE-eligible project cost, whichever is less, from the city share of the RISE Fund

Submitted by Debra Arp Phone No. 515-239-1681 Meeting Date October 8, 2024
Title Revitalize Iowa's Sound Economy (RISE) Application – City of Boone

DISCUSSION/BACKGROUND:

The city of Boone submitted a RISE Immediate Opportunity application requesting a grant to assist in the construction of approximately 1,700 feet of Hancock Drive including turn lanes and a traffic signal at the intersection of Corporal Roger Snedden Drive and Hancock Drive as well as a multi-lane roundabout at the intersection of U.S. 30 and Corporal Roger Snedden Drive all located on the southeast side of town. The Hancock Drive and related intersection improvements are necessary to provide access to the proposed site of Daisy Brands and the roundabout improvements at U.S. 30 are necessary to provide improved access to Daisy Brands and additional economic development in the area. Therefore, the application was evaluated as both a RISE Immediate Opportunity and a RISE Local Development application. The Hancock Drive project is anticipated to be completed by November 2026 and the schedule of the U.S. 30 roundabout project is under development.

This project is necessary to provide improved access to the proposed site of Daisy Brands, a manufacturer of soft dairy products. This company conforms to the legislative requirements of the RISE program.

The roadway improvement is necessary to serve Daisy Brands and will support a commitment of the creation of 217 new full-time jobs out of 255 RISE eligible created jobs and \$729,831,563 in associated capital investment.

The total cost of this portion of the project is \$3,781,913 and a RISE grant of \$3,025,530 is recommended. This results in a RISE cost per job assisted of \$13,942.53 and a total capital investment of \$241.22 for each RISE dollar recommended.

The remaining roadway improvement is necessary to provide improved access for Daisy Brands as well as additional economic development in the area. The total cost of this improvement is \$5,500,000 and a RISE grant of \$2,750,000 is recommended.

PROPOSAL/ACTION RECOMMENDATION:

It is recommended the Commission, based on the capital investment commitment and potential for job creation, consider the project as both a RISE Immediate Opportunity and a RISE Local Development and award a RISE grant of \$5,775,530 or up to 62 percent of the total RISE-eligible project cost, whichever is less, from the city share of the RISE Fund.

Title Revitalize Iowa's Sound Economy (RISE) Application – Sioux Center

DISCUSSION/BACKGROUND:

The city of Sioux Center submitted a RISE Immediate Opportunity application requesting a grant to assist in construction of approximately 1,650 feet of Frontage Road NW located on the northwest side of town. This project is anticipated to be completed by July 2026.

Because this project will provide improved access to more than 12 acres for industrial purposes and to maximize RISE support for this project, staff evaluated the application as a RISE Local Development project.

The evaluation and rating for the project will be discussed.

PROPOSAL/ACTION RECOMMENDATION:

It is recommended the Commission, based on the capital investment commitment and potential for future job creation, reclassify the project as a RISE Local Development project in the September 2024 round of applications and award a RISE grant of \$942,294 or up to 50 percent of the total RISE-eligible project cost, whichever is less, from the city share of the RISE Fund.
