

# Highway 71 Corridor

## *Study Purpose*

To analyze geometric options for the Highway 71 corridor and their impact on vehicular and pedestrian movements as well as property, safety, and beauty

# Highway 71 Corridor

# *Corridor Options*

1. Current geometrics
2. Geometric changes that may include lane modifications, trail enhancements, access control, and multimodal uses
3. Combination of Options 1 & 2

# Highway 71 Corridor

## *Study Process*

A planning subcommittee of the local cities,  
the county, impacted property owners, and  
interested residents will work in  
conjunction with Imagine & the DOT

# Highway 71 Corridor

## *Study Deliverable*

A final concept acceptable to the majority of the stakeholders will be developed, including cost estimates, a proposed funding strategy, and a schedule for implementation
