

## Requirements

Federal regulations require all CDL holders and applicants to certify how they operate their commercial motor vehicle whenever they renew, upgrade, or obtain a CDL for the first time. CDL holders that certify to the “nonexcepted interstate” category must provide a copy of their Medical Examiner’s Certificate to the Iowa Department of Transportation.

These requirements **DO NOT** change who has to obtain a CDL or who has to obtain a Medical Examiner’s Certificate. They only require two things:

### 1. Certification

**All CDL holders and CDL applicants** must self-certify the type of driving they are engaged in. *Use the inside of this brochure to determine your driving type.*

### 2. Medical certificate

**Drivers that certify to nonexcepted interstate driving** must give the Iowa DOT a copy of their Medical Examiner’s Certificate, and must keep that certificate current.

#### New CDL drivers

First time CDL applicants and drivers transferring from out of state will complete the certification process when the license is issued and submit their medical certificate (if required) at that time.

#### Renewing or upgrading a CDL

When renewing or upgrading your CDL, you will complete the certification process when the license is issued.

#### Medical certificates (if required)

Once you have submitted your medical certificate for the first time, please submit renewed certificates before the previous one expires.

*See inside of this brochure for detailed instructions.*

#### What happens if I do not comply?

Federal regulations require the Iowa DOT to downgrade your CDL to a noncommercial license if you are not in compliance.

#### Can I change my certification?

To change your certification category, please visit a driver’s license issuance site to complete a new certification form.

Drivers that certify to intrastate driving are required to have a restriction placed on their license (“K” restriction). This restriction indicates intrastate driving only while operating a commercial vehicle.

Changing your certification category may require the addition or the removal of this restriction on your driver’s license.
