- * AADT component of the benefit-cost formula not representative of the number of vehicles accessing the boat ramp and restaurant during tourist season.
- ** This crossing is relocated from the east through a rail yard, thus alleviating a blocked crossing situation at one of the worst / most frequently blocked crossings in the state (375761J / 163rd Avenue). The county and railroad are also closing three additional crossings as part of this project.
- *** Previously funded FY 2018 project required roadway geometry changes. UP Railroad failed to review and approve the city's roadway plans in before the federal funding was set to expire. Project had to be cancelled, and a new application was submitted.
- **** At onsite review for FY26 funded Highway-Railroad Crossing Surface Repair project, it was noted that additional changes to the roadway were necessary to accommodate recent increased truck traffic. This is project is to fund the placement of the new railroad crossing signals based upon the modified roadway geometry.
- ***** \$500,000 lump-sum to Polk County Grade Separation project, (over UP Railroad) as part of \$26M overall roadway / bridge project.

****** \$250,000 lump-sum to Webster County for one-lane wooden bridge (over CCP Railroad) replacement project. This allows truck access to nearby ethanol plant. Additionally, the County is closing one railroad crossing.

Annual Apportionment: \$5,178,586

Additional Funds (6 cancelled projects): + \$1,251,000

\$6,429,156

Total requested project costs: \$6,312,000

Difference: (\$117,156)
