

2026 Annual Performance Goals Submitted to NTD

The target calculations consider:

- Vehicles in the active fleet that have been funded for replacement (not replaced yet but expected to be replaced in 2026)
- Vehicles that will exceed ULB in 2026
- Estimates for some delays-- so not all “funded-for-replacement” vehicles will be delivered in 2026 although they may be on order
- Average between previous year's target and performance values
