Leica Captivate NTRIP Settings

This document provides step-by-step instructions for configuring Leica Captivate NTRIP settings.

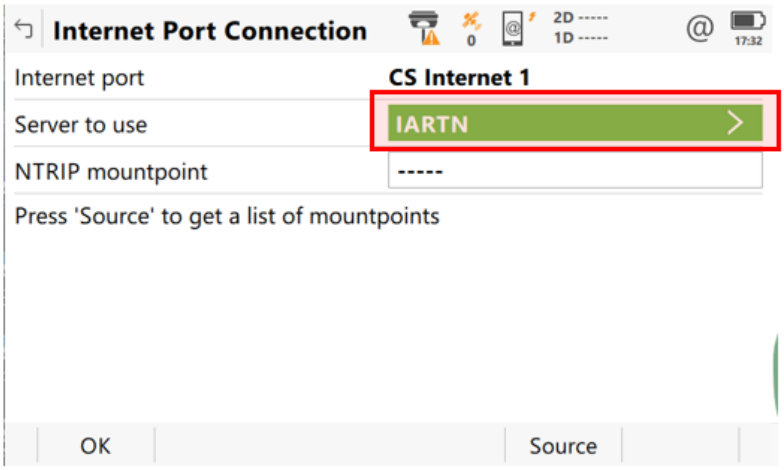

If you have any questions, please contact your software support.

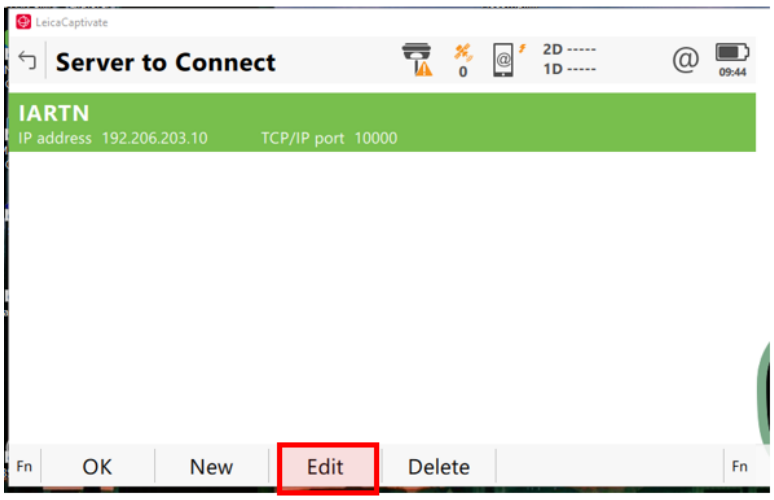

Dan Messerich, PLS
Iowa Real Time Network Administrator

1. From the home screen click on the internet port connection icon in the upper right corner, then click the ‘Server / mountpt’ button

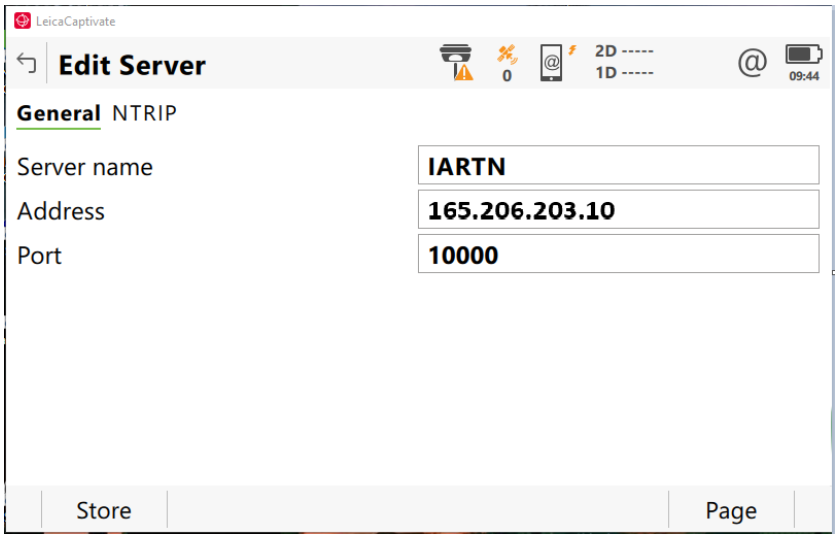

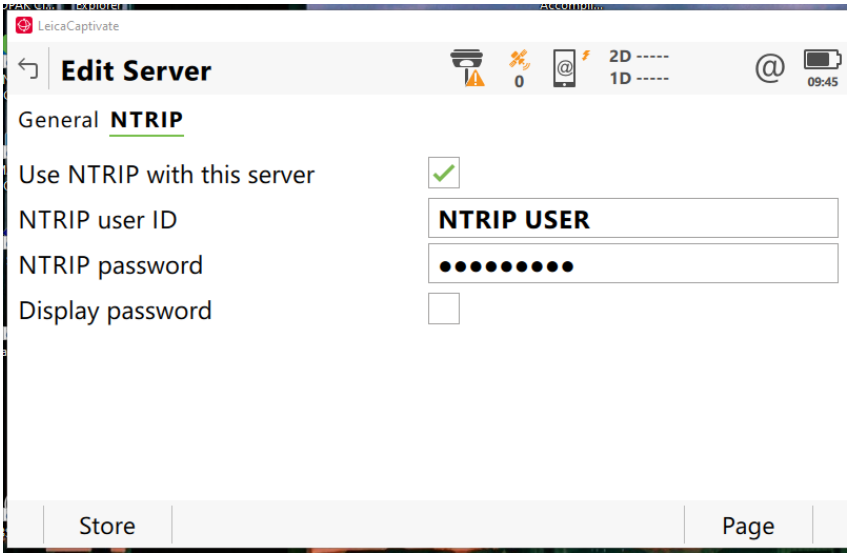

2. Click the ‘Server to use’ to change or confirm the NTRIP settings and Source to select the mountpoint.

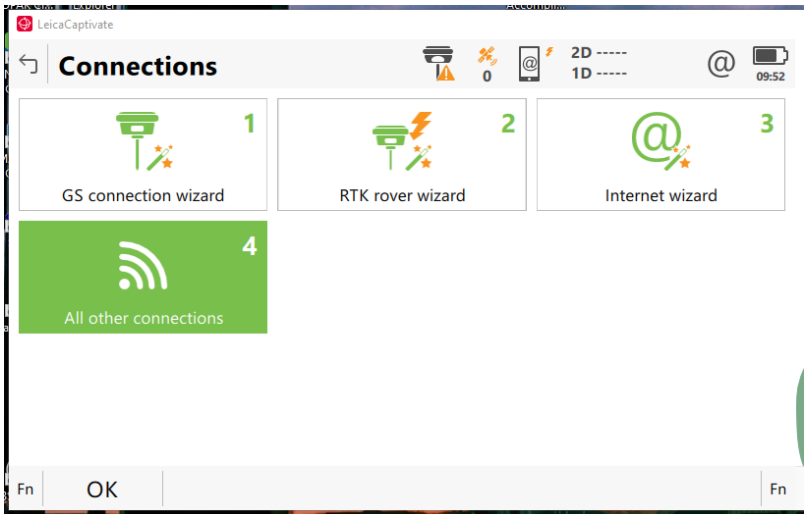

3. Confirm the NTRIP settings

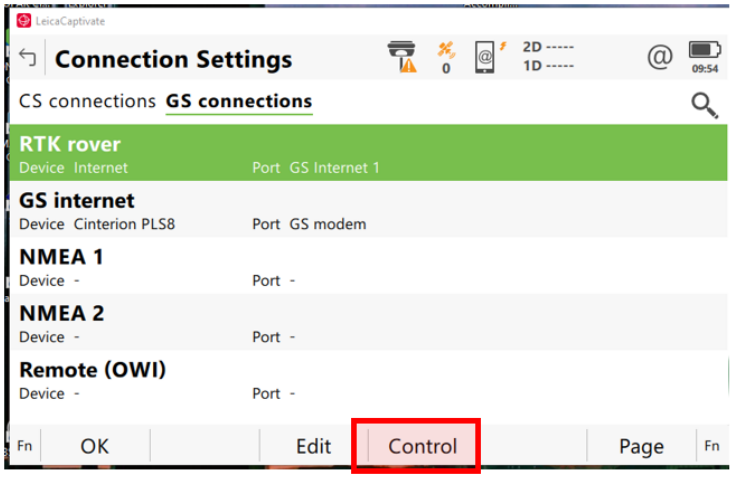

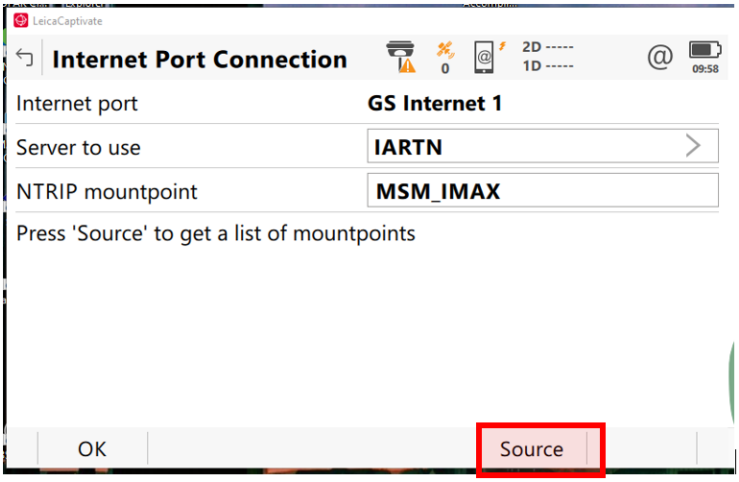

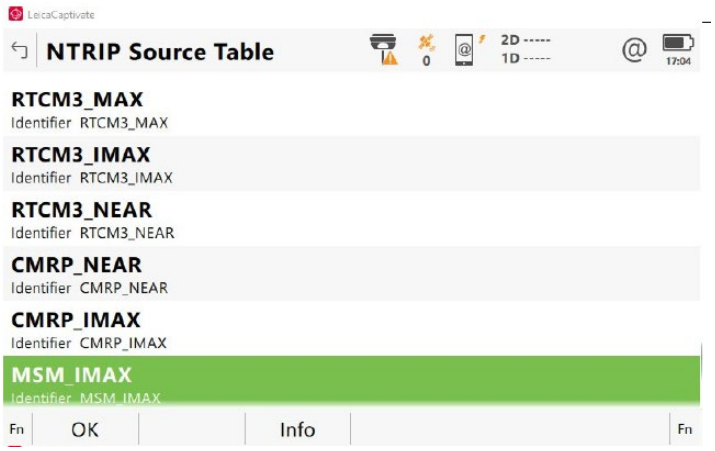

4. To select the mountpoint from the Home Screen > Settings > Connections > Other Connections > All Other Connections

5. Select Control > Source > Select the mountpoint

6. From the Home Screen Click the Data Link icon and Start RTK stream
