**TRANSPORTATION DEPARTMENT[761]**

**Notice of Intended Action**

**Proposing rule making related to abandoned vehicles  
and providing an opportunity for public comment**

The Department of Transportation hereby proposes to amend Chapter 480, “Abandoned Vehicles,” Iowa Administrative Code.

*Legal Authority for Rule Making*

This rule making is proposed under the authority provided in Iowa Code sections 307.12 and 321.89.

*State or Federal Law Implemented*

This rule making implements, in whole or in part, Iowa Code sections 321.71, 321.89 and 321.90.

*Purpose and Summary*

The proposed rule making relates to the processing of abandoned vehicles by a police authority or a private entity and aligns with existing legal authority and Department practice. Chapter 480 and Iowa Code section 321.89 provide a specific process for taking possession and disposing of an abandoned vehicle. The intent of this rule making is to clarify the process for disposal of abandoned vehicles and to protect lienholders or others with a legal interest in the abandoned vehicle. The following paragraphs further explain the proposed amendments:

**Definitions.** A new definition of “bidder registry” is added and the definition of “public auction” is amended to reflect the current options for conducting a public auction, including by electronic means, and to remove the requirement that the highest bidder is awarded the property if the bid represents the fair market value of the property. The intent of this proposed amendment is to encourage use of a public auction to get the most value for the vehicle without necessarily requiring the bid to reach the vehicle’s fair market value.

**Abandoned vehicle records.** The proposed amendments specify the required abandoned vehicle records that a police authority or private entity must maintain to be available for inspection by a peace officer or employee of the Department if the vehicle is auctioned off or transferred to a demolisher. The required records to be available for inspection include the lien results, the National Motor Vehicle Title Information System (NMVTIS) report when no Iowa owner or lienholders are identified, the impound report, the abandoned vehicle notice, the proof of advertisement of a public auction, the certificate of disposal, a copy of the bidder registry and a copy of the affidavit of sale. Maintenance of these records will help ensure compliance with the steps for processing abandoned vehicles, which will reduce fraud and protect consumers.

**Preconditions of sale.** A new subrule is added to require a private entity or police authority to verify that the preconditions of selling an abandoned vehicle required under Iowa Code section 321.89 have been met prior to the sale of an abandoned vehicle. The intent of this subrule is to clarify who is responsible for verifying the preconditions of sale under Iowa Code section 321.89 prior to the sale.

**Public auction.** The proposed amendments address the following requirements related to conducting a public auction of an abandoned vehicle:

- Clarifying that an initial bid at a public auction for the abandoned vehicle may be set at the amount that equals the actual cost of storage and towing of the vehicle.
- Limiting a police authority or private entity to two attempts at selling an abandoned vehicle at auction. If the vehicle cannot be sold at auction after two attempts, or if a sale cannot otherwise be made with enough proceeds to cover expenses associated with processing the abandoned vehicle, then the abandoned vehicle shall be transferred to a vehicle demolisher. This provision will help reduce

the incentive to commit fraud. Because a police authority or private entity is entitled to recoup any unreimbursed costs for processing an abandoned vehicle from the Road Use Tax Fund in accordance with Iowa Code section 321.89(4)“b,” the Department wants to ensure everything possible is being done to achieve the highest sale price for the abandoned vehicle.

- Ensuring that interested members of the public are aware that a vehicle is being offered for sale by adopting certain advertising requirements, which will reduce claims that no one showed up at the public auction to bid on an abandoned vehicle.
- Complying with the requirements under Iowa Code section 321.89 that a public auction, if one was held, actually took place by requiring a bidder registry.
- Requiring a seller of an abandoned vehicle at auction to complete an odometer disclosure statement when an odometer statement is required under Iowa Code section 321.71.
- Clarifying that the costs of advertising the public auction to sell an abandoned vehicle, when submitted with the abandoned vehicle report, are reimbursable in accordance with Iowa Code section 321.89(4)“c” and Chapter 480.

**Good-faith purchaser.** New subrules are added to create consistency with Iowa Code section 321.89(4)“a” by protecting good-faith purchasers of abandoned vehicles that might otherwise be encumbered by liens. The proposed amendments provide that despite any noncompliance on the part of the police authority or private entity with the requirements for disposing of an abandoned vehicle, a good-faith purchaser of an abandoned vehicle takes title free and clear of all liens and a county treasurer shall process the registration and issue a title for an abandoned vehicle accordingly.

#### *Fiscal Impact*

In fiscal year 2019, the Department reimbursed approximately \$309,519 to police authorities and private entities for the processing of abandoned vehicles under Iowa Code section 321.89. This breaks down to an average of \$300 in reimbursement of costs for approximately 1,032 abandoned vehicles. The proposed amendments are not anticipated to result in a significant amount of additional abandoned vehicles being processed each fiscal year because the amendments mostly clarify the process. However, if more public auctions were held because of the proposed amendments authorizing the use of electronic public auctions, the Department might assume that 20 additional vehicles may be sold at public auctions each fiscal year, which translates to an additional \$6,000 (20 x \$300) of reimbursement being paid out of the Road Use Tax Fund each fiscal year.

#### *Jobs Impact*

After analysis and review of this rule making, no impact on jobs has been found.

#### *Waivers*

Any person who believes that the person’s circumstances meet the statutory criteria for a waiver may petition the Department for a waiver under 761—Chapter 11.

#### *Public Comment*

Any interested person may submit written comments concerning this proposed rule making or may submit a written request to make an oral presentation at a public hearing. Written comments or requests to present oral comments in response to this rule making must be received by the Department no later than 4:30 p.m. on September 29, 2020. Comments should be directed to:

**TRANSPORTATION DEPARTMENT[761]**

**Notice of Intended Action**

**Proposing rule making related to motorized bicycle education  
and providing an opportunity for public comment**

The Department of Transportation hereby proposes to amend Chapter 602, “Classes of Driver’s Licenses,” and Chapter 636, “Motorized Bicycle Rider Education,” Iowa Administrative Code.

*Legal Authority for Rule Making*

This rule making is proposed under the authority provided in Iowa Code section 307.12.

*State or Federal Law Implemented*

This rule making implements, in whole or in part, Iowa Code section 321.189.

*Purpose and Summary*

This proposed rule making relates to motorized bicycle (moped) rider education and aligns with existing legal authority and Department practice, eliminates outdated or irrelevant requirements or options, and accommodates modern electronic procedures and terminology.

Rule 761—636.4(321) is amended to consolidate instructor and course approval requirements into a single rule because those requirements are the same for all programs seeking to provide a motorized bicycle rider education course, regardless of whether the provider is a school district or a private/commercial sponsor. However, an application fee only pertains to private/commercial sponsors. The proposed amendments to this rule also specify the length of validity of the course approval and renewal procedures.

This proposed rule making includes a conforming change to subrule 602.2(1) to provide that a certificate of completion of an approved course may be submitted electronically through the Department’s online reporting system by a participating Iowa-approved motorized bicycle rider education provider. **ARC 5102C**, which was published in the Iowa Administrative Bulletin as a Notice of Intended Action on July 29, 2020, also proposed an amendment to subrule 602.2(1). The proposed amendment included in this rule making will supersede the proposed amendment within **ARC 5102C**. This proposed rule making also includes an amendment to update the implementation sentence for rule 761—602.26(321).

Current terminology within Chapter 636 is amended to refer to program approval rather than a license, and an instructor rather than a teacher, and further specifies that the instructor must be listed on the program application to be approved.

Finally, the proposed amendments incorporate the clear driving record standards used by the Department for behind-the-wheel driver education instructors and motorcycle rider instructors and clarify the Department’s current practice of either canceling or denying the instructor’s approval if the instructor does not meet the instructor qualifications under the chapter.

*Fiscal Impact*

This rule making has no fiscal impact to the State of Iowa.

*Jobs Impact*

After analysis and review of this rule making, no impact on jobs has been found.

### *Waivers*

Any person who believes that the person's circumstances meet the statutory criteria for a waiver may petition the Department for a waiver under 761—Chapter 11.

Title Revitalize Iowa's Sound Economy (RISE) Application – Sioux City

**DISCUSSION/BACKGROUND:**

Sioux City submitted a RISE Immediate Opportunity application requesting a grant to assist in paving of approximately 2,700 feet of Andrew Avenue located on the south side of town. This project is anticipated to be completed by December 2021.

Because this project will provide improved access to more than 102 acres for industrial purposes and to maximize RISE support for this project, staff evaluated the application as a RISE Local Development project.

The evaluation and rating for the project will be discussed.

**PROPOSAL/ACTION RECOMMENDATION:**

It is recommended the Commission, based on the capital investment commitment and potential for future job creation, reclassify the project as a RISE Local Development project in the September 2020 round of applications and award a RISE grant of \$228,047 from the city share of the RISE Fund and \$443,031 from the county share of the RISE Fund for a total of \$671,078 or up to 50 percent of the total RISE-eligible project cost, whichever is less.
