

Table of Contents

Chapter I	Introduction	1-1
Chapter II	Mix Properties	
	Stability	2-1
	Density	2-1
	Workability	2-2
	Flexibility	2-2
	Durability	2-3
	Impermeability	2-3
	Fatigue Resistance	2-4
	Skid Resistance	2-4
	Smoothness	2-4
	Asphalt Binder Content	2-5
	Air Voids	2-6
Chapter III	Equipment	
	Brooms	3-1
	Tack Distributor	3-1
	Trucks	3-2
	Paver	3-3
	Rollers	3-5
	Windrow Pickup Elevator	3-6
	Material Transfer Vehicle (MTV)	3-7
	Mat Smoothness Machine	3-8
Chapter IV	Role of the Inspector	
	Description	4-1
	Important Documents	4-2
	Duties Typically Performed	4-5
Chapter V	Traffic Control	
	Flagger	5-1
	Standards	5-3
	Plan Notes & Detail Plan Sheets	5-5
	Traffic Control Devices	5-5
	Monitoring and Documentation	5-7
	Noncompliance	5-9

Accidents	5-10
-----------------	------

Chapter VI Preparation of Grade and Base

Cleaning & Preparation of Base	6-1
Base Repair	6-1
Base Widening	6-2
Application of Tack Coat	6-3
Treatment of Fixtures	6-4
Fabric Reinforcement	6-5
Scarification	6-6
Heater Scarification	6-6
Cold In-place Recycling	6-8
Slab Fracturing Processes	6-11
Special Backfill	6-15
Modified Subbase	6-15
Unstable Subgrades and Subbases	6-16

Chapter VII Mix Delivery, Placement, and Compaction

Truck Unloading	7-1
Dimensions	7-3
String Line	7-4
Edge Alignment	7-5
Wedge, Leveling and Strengthening Courses	7-5
Paver Speeds and Plant Production	7-7
Paver Operations	7-8
Runouts	7-9
Transverse Joints & Runouts	7-10
Longitudinal Joints	7-12
Hand Spreading	7-14
Compaction	7-14
Roller Operations	7-18
Classes of Compaction	7-19
Test Strips	7-21
Checking Roller Coverage	7-22

Chapter VIII Limitations and Miscellaneous Operations

Warm Mix Asphalt	8-1
Recycled Asphalt Shingles	8-2
Safety Edge	8-3
Milled Shoulder Rumble Strips	8-4

Milled Centerline Rumble Strips	8-6
Granular Shoulders	8-7
Public Convenience and Safety	8-9
Haul Roads	8-10
Mat Surface Conditions	8-11
Surface Temperature	8-12
Mat Cooling	8-12
Mix Temperature	8-13
Calendar Dates	8-15
Cold Weather Paving	8-15
Winter Shutdown	8-16
Tickets, Quantities, and Yield	8-18
Contractor Sampling	8-20
Coring	8-21
Smoothness Testing	8-23

Chapter IX Problems and Solutions

Segregation	9-1
Tack Coat Application	9-5
Flushing or Bleeding	9-7
Tender Mixes	9-7
Mix Pickup	9-9
Roller Marks	9-10
Wavy Surface	9-10
Reflective Bumps	9-11
Cracking	9-12
Rutting	9-14
Crushing Aggregate	9-15
Longitudinal (Centerline) Joints	9-16
Screed Marks / Mat Texture	9-19
Mat Problem Trouble-Shooting	9-20

Chapter X Appendix

Superpave (Gyratory Mix Design) Discussion	10-1
HMA Paving in Iowa - A Brief History	10-3
Factors Influencing Compaction	10-9
Mat Problem Trouble-Shooting Guide	10-10
Asphalt Terminology (Glossary)	10-11
HMA Paving Field Inspection Checklist.....	10-29
