Vehicle Registration Rate Book Reference

Iowa Vehicle Registration & Titling (VRT) system has calculators to help you estimate title and registration fees for a vehicle. Calculators also allow you to calculate registration credits for a vehicle. The following calculators are available in VRT under Dealer Inquiry.

- Auto/MPV rate calculator—Enter vehicle information and calculate the annual fee to register the vehicle.
- *Credit calculator*—Enter vehicle information and calculate the approximate amount of registration credit that remains on a current vehicle registration if the vehicle is sold, traded, or junked.
- *Fee estimator*—Enter vehicle information and calculate the total fees for a vehicle, including the registration fee, title fee, plate fee, use tax, and recording fee.
- *Truck rate calculator*—Enter truck tonnage information and calculate the cost of registering a truck that is three tons or more.

This document includes the following:

3 Enter the vehicle identification number (VIN) or the year, make, and model.

4 Click Calculate.

The vehicle details appear. Click the plus sign to expand the registration costs per year, depending on the age of the vehicle.

Important: You can determine the age by subtracting the model year from the current year and adding one year (current year - model year + 1 year). For example, a 2004 vehicle is two years old (2005 - 2004 + 1 = 2).

Displays the rate source. If IA, the rate is for a vehicle that exists in the Iowa database. If RB, the vehicle data was supplied by the VINA Rate book.

Calculating credit

You can calculate the approximate amount of registration credit that remains on a current vehicle registration if the vehicle is sold, traded, or junked.

To calculate credit

- 1 On the **Tools** menu, click **Dealer Inquiry**. The Dealer Inquiry window appears.
- 2 On the left side of the window, click **Credit Calculator**. The Credit Calculator search criteria appears.
