This chart has been designed to assist those registering as a new carrier, adding new jurisdictions to an existing fleet or renewing in a jurisdiction where there were no actual miles traveled. The estimated mileage in the chart for each jurisdiction is a per vehicle figure. You must multiply the chart miles by the total number of power units in the fleet.

If you do not use the chart, you will need to estimate the miles for one year of operation and give a detailed explanation of how you estimated the mileage on your renewal or application form. This should include business purposes, contracts and route. Example: Four trips from Council Bluffs, Iowa, to Des Moines, Iowa, on I-80 (135 miles x 4 trips = 540 miles.)

**Note:** If you apportion in a jurisdiction and do not provide an estimate or fail to provide an explanation for your estimate, the renewal distance form will be revised using this *Estimated Distance Chart*. Renewal invoices can be changed or disputed within certain periods. If invoice is dated between Dec. 1 and Jan. 31, contact the Iowa DOT's Office of Motor Carrier Services before Feb. 15. Invoices dated after Jan. 31 can be changed or disputed within 15 calendar days from the invoice date. You may do this by calling 515-237-3268, faxing your changes to 515-237-3225 or mailing them to the Iowa DOT's Office of Motor Carrier Services at P. O. Box 10382, Des Moines, Iowa 50306-0382. Payment of the invoice is acceptance of the distance and weights used to calculate the invoice and cannot be adjusted after payment.
