

PUBLIC INPUT REQUESTED

ON PROPOSED IMPROVEMENTS TO IOWA 202 IN APPANOOSE COUNTY

The Iowa Department of Transportation is requesting public input on the proposed project to improve 14 culverts along Iowa 202 from just north of the Missouri State line to the City of Moulton, and the proposed detour. The proposed project will consist of replacing 5 wood box culverts with 24-inch up to 54-inch in diameter reinforced concrete pipes and slip-lining the remaining 9 wood box culverts. The project is scheduled to take place during the 2021 construction season.

Through traffic would be directed to use an official off-site detour. The 26.5-mile marked detour will follow Iowa 2, U.S. 63, and Missouri 202. It is anticipated the detour will be in place for the duration of construction. Access to all properties shall be maintained at all times, and local traffic will have access to Iowa 202 except for the lanes crossing project areas closed due to construction.

For information regarding the proposed improvements please view the information online at www.iowadot.gov/pim, or if you do not have access to the internet or need assistance viewing the information, contact:

Hector Torres-Cacho, transportation planner
Iowa DOT District 5 Office | 205 E. 227th Street | Fairfield, IA 52556
Phone: 641-472-4171 or 800-766-4368
Email: hector.torres-cacho@iowadot.us

Comments must be received by October 8, 2020, to be considered.

Visit the Iowa DOT's project-related public involvement event website at www.iowadot.gov/pim for information about scheduled public meetings and hearings, or view and offer input on any DOT project using the new "Map Search" feature.
