

The Iowa Code chapters or sections identified on the following page impact the DOT, counties or transportation. An enrolled bill that amends one or more of these chapters or sections is indexed by the Code sections the bill amends.

Other bills or sections of bills which are of interest but which do not amend one of the listed chapters or sections are indexed as see bill. The see bill entries are arranged in bill-number order. A bill may be of interest because it is transportation-related, it specifies the DOT or the DOT director by name, or it applies to all state agencies or to all state employees.
