CDL study manuals are available by request from Iowa driver’s license issuance sites and on the Iowa DOT’s website.

Due to the implementation of new CDL rules by the Federal Motor Carrier Safety Administration in July 2015, this document is subject to updates as the Iowa DOT develops additional guidance.

Available electronically at:
Definitions

CLP – commercial learner’s permit

CMV – commercial motor vehicle
A motor vehicle or combination of vehicles used to transport passengers or property if any of the following apply.

1. The combination of vehicles has a GCWR of 26,001 or more pounds provided the towed vehicle has a GVWR of 10,001 or more pounds.
2. The motor vehicle has a GVWR of 26,001 or more pounds.
3. The motor vehicle has a GVWR less than 26,001 pounds and is designed to transport 16 or more passengers, including the driver; or is redesigned or modified to transport fewer than 16 persons with disabilities.
4. The motor vehicle has a GVWR less than 26,001 pounds and is used to transport placardable amounts of hazardous materials (HAZMAT).

FMCSA – Federal Motor Carrier Safety Administration

GCWR – gross combination weight rating.
The combined gross vehicle weight ratings of two or more units. (ex. GVWR of power unit + GVWR of trailer = GCWR)

GVWR – gross vehicle weight rating.
This is the manufacturer’s rating of the maximum load plus the weight of the vehicle. The GVWR label may be located in the cab, on the trailer hitch, or on the front of the trailer.

Hazardous material
A substance or material that has been determined by the U.S. Department of Transportation to be capable of posing an unreasonable risk to health, safety, and property when transported in commerce, and which has been so designated.

Interstate commerce
Moving goods or passengers across a state line, including international boundaries, or wholly within one state as part of a through movement that originates or terminates in another state or country.

Intrastate commerce
Moving goods or passengers solely within the state of Iowa provided those goods and passengers originate in Iowa and their destination is within Iowa.
Determining the CDL class needed

CDL class type quick reference diagram

**GVWR:** weight of an individual power unit, trailer, or other towed unit.

**GCWR:** combined weight of the two vehicles that make up a combination vehicle.

GVWR (Power Unit) + GVWR (Trailer) = GCWR

START

Is the GCWR 26,001 lbs. or more?

NO

Is the power unit’s GVWR 26,001 lbs. or more?

NO

Is the trailer’s GVWR 10,001 lbs. or more? (if a single vehicle with no trailer, choose “NO.”)

NO

Is the vehicle transporting hazardous materials in a placardable quantity?

NO

Is the vehicle designed to transport 16 or more passengers including the driver?

NO

YES

Class A

Class B

Class A

Class C

Class C

No CDL

Class D chauffeur may be required, see page 13
**Who is exempt from holding a CDL in Iowa?**

- **Firefighter and police officer**
  A volunteer or paid firefighter while operating a fire vehicle or a peace officer operating a commercial motor vehicle while executing related emergency governmental functions.

- **Military**
  Active duty military personnel while operating equipment owned or operated by the U.S. Department of Defense.

- **Recreational vehicle/motor home**
  A person operating a recreational vehicle for personal or family use or a person operating a vehicle with less than 26,001 GVWR towing a towable recreational vehicle or fifth-wheel trailer for personal or family use.

- **Farmer**
  A farmer or person working for a farmer operating a covered farm vehicle. Covered farm vehicles must be identified in one of the following ways: a special farm license plate, an “F” sticker on the license plate, or drivers must carry a completed “Designation as Iowa Covered Farm Vehicle” form in the covered farm vehicle during operation. A Class D chauffeur’s license may be required if the covered farm vehicle is a truck-tractor/semitrailer combination. (See more information about Class D licenses on page 13). For more information about covered farm vehicles, visit: [iowadot.gov/farmersafety/map-21-covered-farm-vehicle-exceptions](http://iowadot.gov/farmersafety/map-21-covered-farm-vehicle-exceptions)

- **Home care**
  An in-home care aide operating a motor vehicle in the course of the in-home care aide’s duties.

**Requirements to obtain a CDL**

- Be at least age 18.
- Provide proof of full name, date of birth, and Social Security number.
- Proof of citizenship or lawful permanent residency.
- Provide proof of Iowa residency
- Vision screening
- Hold a CLP (commercial learner’s permit) for at least 14 days prior to application for CDL
- An interstate driving record check will be performed for all CDL applicants; the check must show the applicant is eligible for commercial licensing in all other states.

**Knowledge tests**

The knowledge test(s) that an applicant is required to take depends on the type of license, including any endorsements, the driver is applying for.

(number of questions/allowed to miss):
- General knowledge for any CDL (50/10)
- Combination vehicle for Class A (20/04)
- Air brake (25/05)
- Passenger (20/04)
- School bus (20/04)
- Doubles/Triples (20/04)
- Hazmat (30/06)
- Tank (20/04)
- Iowa operator (if applicable) (25/05)

**Skills test** – You must provide a vehicle representing the type and class of license you are applying for. **There are three phases of tests:**

1. **Pre-trip vehicle inspection skills.**
   Review section 11 in the CDL Manual

2. **Basic vehicle control skills (turning and backing maneuvers).**
   See section 12 of the CDL manual.

3. **Safe on-road driving skills.**
   See section 13 of the CDL manual.

The use of interpreters and/or translators is prohibited by federal law. However, the knowledge test may be administered in a written form, verbally, or in an automated format and can be administered in a foreign language, provided no interpreter is used in administering the test.
Commercial Learner’s Permit (CLP) Requirements

FMCSA regulations require all drivers applying for a CDL for the first time to obtain a Commercial Learner’s Permit (CLP). A CLP is also required for applicants who wish to upgrade their existing CDL by adding an endorsement or removing a restriction and doing so requires a skills test.

Upgrades that require a skills test include:

- Upgrade from a Class C CDL to a Class B CDL or Class A CDL
- Upgrade from a Class B CDL to a Class A CDL
- Add an endorsement for passenger vehicles
- Add an endorsement to operate a school bus
- Remove a restriction that only permits a CDL holder to operate CMVs without air brakes
- Remove a restriction that only permits a CDL holder to operate CMVs without full air brakes (i.e. driver may operate CMV with air over hydraulic brake system)
- Remove a restriction that only permits a CDL holder to operate CMVs that are not a tractor-trailer combination
- Remove a restriction that only permits a CDL holder to operate CMVs with automatic transmissions
- Remove a restriction related to passenger and school bus vehicles that limits the driver to Class B or Class C vehicles when operating passenger vehicles or school buses

The purpose of the CLP is to allow accompanied behind-the-wheel training in a type and class of Commercial Motor Vehicle (CMV) that the individual’s current license (commercial or noncommercial) is not valid to operate.

To obtain a CLP, a person will be required to pass the appropriate knowledge test(s) for the CMV they wish to operate.

The CLP will specify the type and class of CMV the individual may operate when accompanied by a person that holds a CDL valid for the same type and class of CMV. Individuals must hold the CLP for at least fourteen days before they may take the required skills (driving) test.

For more information about CLPs, please visit iowadot.gov/mvd/cdl/Commercial-learners-permit
CDL licensing

This chart offers another way to look at what type of CDL is required for some common commercial motor vehicles.

### CDL vehicle/license classification system

<table>
<thead>
<tr>
<th>Type A vehicle/Class A CDL</th>
<th>Any combination of vehicles with a GCWR of 26,001 or more pounds, provided the GVWR of the vehicle(s) being towed is in excess of 10,000 pounds.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Examples include, but are not limited to:</td>
<td>![Example Vehicles]</td>
</tr>
<tr>
<td>Class A license holders may, with appropriate endorsements, operate vehicles within types B and C.</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Type B vehicle/Class B CDL</th>
<th>Any single vehicle with a GVWR of 26,001 or more pounds, or any such vehicle towing a vehicle not in excess of 10,000 pounds GVWR.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Examples include, but are not limited to:</td>
<td>![Example Vehicles]</td>
</tr>
<tr>
<td>Class B license holders may, with appropriate endorsements, operate vehicles within Type C.</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Type C vehicle/Class C CDL</th>
<th>Any single vehicle, or combination of vehicles, that meets neither the definition of Type A nor Type B but is designed to transport 16 or more passengers including the driver; or is redesigned or modified to transport fewer than 16 persons with disabilities.</th>
</tr>
</thead>
<tbody>
<tr>
<td>This also applies to vehicles not meeting the Type A or B definitions but are used in the transport of placardable amounts of hazardous materials.</td>
<td></td>
</tr>
<tr>
<td>Examples include, but are not limited to:</td>
<td>![Example Vehicles]</td>
</tr>
</tbody>
</table>

### CDL fees: $8 per year

(initial and renewal) plus applicable endorsement or restriction fees.

The holder of a Class A, B, or C CDL may also operate passenger cars and other non-CMVs, except a motorcycle, without additional licensing.
CDL Licensing and Passenger Vehicle Configurations

This chart offers an alternative way of determining which type of CDL license you require by use of towed GVWR, GCWR, and power unit GVWR. Additionally, there is guidance on Iowa driver licensing requirements for some common passenger vehicles.

<table>
<thead>
<tr>
<th>Power unit GVWR</th>

**Notes:**

A driver who tows a vehicle in an emergency “first move” from the site of a vehicle malfunction or accident on a highway to the nearest appropriate repair facility is not required to have the endorsement(s) applicable to the towed vehicle. In any subsequent move, a driver who tows a vehicle from one repair or disposal facility to another is required to have the endorsement(s) applicable to the towed vehicle with one exception: a tow truck driver is not required to have a passenger endorsement to tow a passenger vehicle.
CDL and CLP endorsements

P (passenger) FEE: $10
Required for any vehicle rated for 16 or more people, including the operator, or originally designed for 16 or more people, but altered to provide space for passengers with disabilities. Knowledge and driving test required.

S (school bus) FEE: $10
Required when transporting pre-primary, primary, or secondary school students in a yellow school bus. The passenger endorsement is always required. Knowledge and driving test.

H (hazardous materials [hazmat]) FEE: $5
Required for operating any vehicle carrying a quantity of hazardous materials requiring placarding. Knowledge test for initial issuance or out-of-state hazmat endorsement transfer, renewal, and upgrade required.

CDL holders applying for an Iowa DOT hazardous materials endorsement must have a valid Transportation Security Administration’s Security Threat Assessment. The Iowa DOT does not administer this program. For information about the assessment, call the TSA at 855-347-8371 or visit: www.hazprints.com. Knowledge test required.

T (doubles/triples) FEE: $5
Required when pulling multiple trailers. Knowledge test required.

• Note: Iowa law does not permit the operation of triple trailers; however, a driver whose home state is Iowa may obtain the endorsement to haul a triple trailer in those jurisdictions where they are legal

N (tank) FEE: $5
Required for vehicles with a permanent or temporarily attached tank or tanks with an individual rated capacity of more than 119 gallons and a combined rated capacity of 1,000 gallons. This does not include vehicles transporting an empty storage tank with a rated capacity of 1,000 gallons or more that is not designated for transportation and is temporarily attached to a flatbed trailer.

X (tank and hazmat)
Both the tanker knowledge test and the hazmat knowledge tests are required and the endorsements are paid for separately (see above for fee information).

• Note: the hazmat endorsement fee is charged at each renewal. All other endorsement fees are only charged one time when the driver obtains the endorsement for the first time. This does not apply to individuals reinstating endorsements on their CDL. A reinstatement of endorsements will accrue endorsement fees at time of issuance.
# CDL and CLP restrictions

<table>
<thead>
<tr>
<th>The following restrictions may apply to a CDL or a CLP</th>
</tr>
</thead>
</table>

**E – No manual transmission equipped CMV.** This restriction applies to a licensee who performs the skills test in a vehicle equipped with automatic transmission and prohibits the operation of a commercial motor vehicle equipped with a manual transmission.

**K – Intrastate only.** This restriction applies to a licensee who self-certifies to non-excepted intrastate or excepted intrastate driving and prohibits the operation of a commercial motor vehicle in interstate commerce. For more information about medical certification requirements visit [http://iowadot.gov/mvd/cdl/medical-cards-and-certification](http://iowadot.gov/mvd/cdl/medical-cards-and-certification).

**L – no air brake equipped CMV.** This restriction applies to a licensee who either fails the air brake component of the knowledge test or performs the skills test in a vehicle not equipped with air brakes and prohibits the operation of a commercial motor vehicle equipped with an air brake system.

**M – no Class A passenger vehicle.** This restriction applies to a licensee who applies for a passenger endorsement and performs the skills test in a passenger vehicle that requires a Class B commercial driver’s license and prohibits operation of a passenger vehicle that requires a Class A commercial driver’s license.

**N – no Class A and B passenger vehicle.** This restriction applies to a licensee who applies for a passenger endorsement and performs the skills test in a passenger vehicle that requires a Class C commercial driver’s license and prohibits operation of a passenger vehicle that requires a Class A or Class B commercial driver’s license.

**O – No tractor-trailer CMV.** This restriction applies to a licensee who performs the skills test in a combination vehicle for a Class A commercial driver’s license with the power unit and towed unit connected with a pintle hook or other non-fifth wheel connection and prohibits operation of a tractor-trailer combination connected by a fifth wheel.

**V – medical variance.** This restriction applies to a licensee when the department is notified that the driver has been issued a medical variance and indicates there is information about a medical variance on the driver record accessible to law enforcement.

**Z – No full air brake equipped CMV.** This restriction applies to a licensee who performs the skills test in a vehicle equipped with air over hydraulic brakes and prohibits the operation of a commercial motor vehicle equipped with any braking system operating fully on the air brake principle.

<table>
<thead>
<tr>
<th>The following additional restrictions may only be applied to a CLP</th>
</tr>
</thead>
</table>

**P – no passengers in CMV bus.** This restriction applies to a permit holder who has a commercial learner’s permit with a passenger or school bus endorsement and prohibits the operation of a commercial motor vehicle carrying passengers, other than federal/state auditors and inspectors, test examiners, other trainees, and the commercial driver’s license holder accompanying the permit holder.

**X – no cargo in CMV tank vehicle.** This restriction applies to a permit holder who has a commercial learner’s permit with a tank vehicle endorsement and prohibits the operation of any tank vehicle containing cargo or any tank vehicle that previously contained hazardous materials that has not been purged of any residue.
Restricted CDL

A restricted CDL may be issued to suppliers or employees of suppliers of agricultural inputs. Agricultural inputs means applicators of agricultural chemicals, fertilizer, seed, or animal feeds. The applicant may operate Class B or Class C vehicles, but not a Class A combination vehicle.

The applicant must have two years of driving experience with a license permitting at least two years of unaccompanied driving. This does not include a motorized bicycle license, a minor’s school license, or a minor’s restricted license.

Additionally, the applicant must have a good driving record for the most recent two-year period. A “good driving record” means a driving record showing:

• No multiple licenses.

• No driver’s license suspensions, revocations, disqualifications, denials, bars, or cancellations of any kind.

• No convictions in any type of motor vehicle for:
  • Driving under the influence of alcohol or a controlled substance.
  • Leaving the scene of an accident.
  • Committing any felony involving a motor vehicle.
  • Speeding 15 miles per hour or more over the posted speed limit.
  • Reckless driving, drag racing, or eluding or attempting to elude a law enforcement officer.
  • Improper or erratic lane changes.
  • Following too closely.
  • A moving violation that contributed to a motor vehicle accident.
  • A violation deemed serious under 761 IAC 615.17(321).

• No record of contributive accidents

A restricted CDL is valid for a commercial motor vehicle (CMV) requiring tank, air brake, and hazardous materials endorsements/restrictions; but no CDL knowledge or driving tests will be required, nor will endorsement fees be charged, and no CDL endorsements/restrictions will show on the license.

Restricted CDL holders may operate between the place of business and the farm currently being serviced, but not to exceed 150 miles from the place of business.

Individual periods that are less than 180 days may be taken in 60 or 90 day increments, provided the cumulative period of validity in the calendar year does not exceed 180 days. An individual period of validity may be extended by 30 days, provided the application for extension is made before the individual period expires and again provided the cumulative period of validity in the calendar year does not exceed 180 days. (An application for extension that is made after an individual period expires will be treated as an application for a new individual period.)

A restricted commercial driver’s license must be validated for commercial motor vehicle operation for each individual period of validity. This means that the licensee must have their good driving record confirmed and a new card issued at each application for an individual period of validity.

Examples:

Driver A elects a single restricted CDL valid for 180 days, beginning March 15 and continuing through Sept. 11. Driver A will go to a driver’s license issuance site for the restricted CDL before it is issued to confirm his good driving record and be issued the card, and after the restricted CDL expires will not be eligible for an extension or another restricted CDL until the next calendar year.

Driver B elects to divide her 180 days for the calendar year into two 90-day periods, one beginning March 1 and continuing through May 29, and one beginning Sept. 1 and continuing through Nov. 29. Driver B will go to a driver’s license issuance site for each restricted CDL before it is issued to confirm her good driving record and be issued the card, and after the second restricted CDL expires will not be eligible for an extension or another restricted CDL until the next calendar year.
**Driver C** elects to divide his 180 days for the calendar year into three 60-day periods, one beginning April 10 and continuing through June 9; one beginning Aug. 14 and continuing through Oct. 13; and one beginning Nov. 1 and continuing through Dec. 29. Driver C will go to a driver’s license issuance site for each restricted CDL before it is issued to confirm his good driving record and be issued the card, and after the third restricted CDL expires will not be eligible for an extension or another restricted CDL until the next calendar year.

**Driver D** initially applies for a restricted CDL that is valid for 90 days, beginning March 20 and continuing through June 18, but because of flooding decides to extend that period of validity by 30 days to July 18. Driver D expended 120 days of her total 180 days for the calendar year, and would be eligible only for a second restricted CDL valid for a period of 60 days the remainder of the calendar year.

The only hazardous materials allowed to be carried with a restricted CDL:

- **Liquid fertilizers**, such as anhydrous ammonia, in quantities of 3,000 gallons or less.
- **Solid fertilizers**, such as ammonium nitrate, provided they are not mixed with any organic substance.

The cost of a restricted CDL is $8 per year. Each time the driver comes in to update the validation period there will be a $10 charge and a complete search of the applicant’s driving record.

When the driver is not operating a CMV, he/she can only drive the types of vehicles he/she was valid for before the restricted CDL was issued. That license type will be indicated on the restriction supplement. A person already holding a CDL or commercial learner’s permit is not eligible for a restricted CDL.

**Tickets/Violations**

Federal regulations require that Iowa licensed commercial drivers must report all violations (except parking violations) to their employers within 30 days of conviction, whether the driver was operating a commercial or noncommercial vehicle.

The drivers must also notify Driver & Identification Services, Iowa Department of Transportation, P.O. Box 9204, Des Moines, Iowa 50306-9204 of any out-of-state violations received (except parking violations) in commercial or noncommercial vehicles.

Unemployed drivers should notify Driver & Identification Services of all violations (except parking violations). Information required in this notification includes date, location (town and state), driver’s name, driver’s license number, driver’s signature, nature of violation, and type of vehicle operated. Individual drivers should determine if the requirements of the Federal Motor Carrier Safety Administration’s regulations in the U.S. Code of Federal Regulations 383.31 and 391.27 apply to them.

**Disqualifications**

Federal regulations require that certain offenses committed in a CMV or non-CMV will result in a CDL holder’s disqualification for specified periods of time, up to and including possible lifetime disqualification. For further information on specific disqualification reasons, please refer to CFR 383.51 or refer to our CDL manual online at [https://iowadot.gov/pubs/CDL-manual.pdf](https://iowadot.gov/pubs/CDL-manual.pdf).

**Open Container law**

Iowa law and federal safety regulations prevent the driver of any commercial vehicle from having **opened or unopened** alcohol in the vehicle. The penalty for a violation is a fine and 24-hours out-of-service.

It is illegal in Iowa to drive with an open container of beer or any other alcoholic beverage if the open container is in the passenger compartment, including the glove compartment of a noncommercial vehicle. This applies to both drivers and passengers.

The penalty for violating this open container law can be a $100 fine or 30 days in jail.
Class D chauffeur’s license requirements

Class D license fees: $8 per year (initial and renewal)
The Class D (chauffeur’s) license is NOT valid as a CDL.

Iowa law requires the following drivers to possess a Class D (chauffeur’s) license unless they possess a CDL valid for the vehicle when:

- Operating a special truck (a vehicle weighing between 12,000 – 78,000lbs, including a truck-tractor/semitrailer combination) more than 100 miles from owned or rented farmland.
- Transporting 15 or fewer persons, including driver, for wages, compensation, or hire.
- Operating a covered farm vehicle if the vehicle is a truck-tractor/semitrailer combination and is being driven more than 100 miles from the owned or rented farmland. Visit iowadot.gov/farmersafety/map-21-covered-farm-vehicle-exceptions for more information about covered farm vehicles.
- Operating a single vehicle with a gross vehicle weight rating (GVWR) specified by the manufacturer of 16,001 to 26,000 pounds.

Persons exempt from Class D (chauffeur’s) license requirements are:

- Military personnel while on active duty and while operating military vehicles.
- A farmer or farmer’s hired help while operating a truck anywhere in Iowa, other than a truck-tractor/semitrailer, owned by the farmer and used to transport the farmer’s own products or property.
- A farmer or farmer’s hired help, age 18 or older, when operating a special truck owned by the farmer (such as a truck-tractor semi-trailer combination), within 100 miles from the farmer’s owned or rented farmland.
- A person operating a farm tractor or implement of husbandry to or from the home farm to any adjacent or nearby land.
- A volunteer firefighter or volunteer ambulance driver while operating a fire, ambulance, or rescue vehicle.
- An Iowa Department of Corrections or Department of Human Services employee transporting persons in an automobile.

The Class D (chauffeur’s) license will have an endorsement on the license according to the type of vehicle in which the test was taken.

Class D (chauffeur’s) endorsements

1. Truck-tractor semitrailer combination. (Also valid for endorsements 2 and 3.)
2. Vehicle with GVWR 16,001 or more pounds (not to exceed 26,000 pounds), not valid for truck-tractor semitrailer combination. (Also valid for endorsement 3.)
3. Passenger vehicle designed to carry 15 or fewer persons, including the driver.

A Class D license is also valid to operate a private passenger car or other vehicles, except a motorcycle or a vehicle requiring specific licensing to operate.

Applicants must pass the General Knowledge exam to obtain any Class D chauffeur’s license. A driving test will be required to obtain the “2” endorsement listed above and may be required to obtain the “3” endorsement.
Examples of vehicles that require a Class D license

| Farm semitrailer or truck tractor operated by a farmer or employee of a farmer engaged in their own farming operations more than 100 miles from the owned or rented farmland |
| 16,001-26,000 lbs. GVWR trucks |
| Passenger vehicles and school buses with a seating capacity of 15 or fewer (including the driver) |

CDL Testing

The CDL skill/driving tests are given Tuesday through Saturday at the Iowa DOT’s driver’s license stations. Some Iowa county treasurer’s offices also offer the CDL skill/driving tests.

Visit: iowadot.gov/mvd/iowa-dot-locations to locate the testing site nearest you, and find additional information such as hours.

Contact Information

Driver & Identification Services: 515-244-8725 or 515-244-9124
Office of Motor Vehicle Enforcement – Commercial vehicle information: 515-237-3305

All CDL holders must certify how they use or intend to use their commercial motor vehicle and may be required to submit a medical certificate to the DOT.

You will be asked to certify before you are issued a Commercial Learner’s Permit. Please visit iowadot.gov/mvd/cdl/medical-cards-and-certification for more information about these requirements so you are prepared to make this selection.
## CDL/CLP testing study guide

The following may not be used during the actual test, however, this document at this link can be: [iowadot.gov/mvd/motorcarriers/cdl_pretrip.pdf](http://iowadot.gov/mvd/motorcarriers/cdl_pretrip.pdf)

---

### ALL VEHICLES

**Engine Start**
- Safety belt
- Emergency equipment
- Safe start
- Temperature gauge
- Oil pressure gauge
- Ammeter/voltmeter
- Air pressure gauge
- Lighting indicators
- Horn(s)
- Heater/defroster
- Windshield/mirrors
- Windshield wipers
- Parking brake check
- Service brake / ABS
- Air brake/hydraulic brake check

### FRONT OF VEHICLE

- Lights/reflectors

### Engine Compartment

- Oil level
- Coolant level
- Power steering
- Water pump
- Alternator
- Air compressor
- Hoses/lines

### Steering

- Steering box/Steering linkage

### Front Wheel

- Tires
- Rims
- Lug nuts
- Hub oil seal

### Front Suspension

- Springs/shocks
- U-bolts
- Spring mounts

### Front Brake

- Hoses/lines
- Brake chamber
- Slack adjuster
- Drum/rotor/disk

---

### ALL COMBINATION VEHICLES

#### TRUCK

- Air/electric connectors

#### Coupling System

- Mounting bolts
- Pintle hook
- Hitch release lever
- Safety devices

#### TRAILER

- Air/electric connectors and lines

#### Coupling System

- Tongue/drawbar
- Mounting bolts
- Safety devices
- Sliding pintle

#### TRACTOR

- Air/electric connectors and lines

#### Coupling System

- Mounting bolts
- Platform
- Locking jaws/lever
- Release arm/safety latch
- 5th wheel skid plate
- Sliding 5th wheel pins

#### SEMI-TRAILER

- Air/electric connectors

#### Coupling System

- Kingpin
- Apron
- Gap

### BACK OF VEHICLE

- Doors/ties/lift
- Splash guards
- Lights/reflectors

### TRAILER/SEMI TRAILER

#### Trailer Front

- Header board/bulkhead
- Lights/reflectors

#### Side of Trailer

- Landing gear
- Frame/tandem release
- Doors/ties/lift
- Lights/reflectors

#### Wheels

- Tires
- Rims
- Lug nuts
- Axle/hub oil seal
- Spacers/bud spacing

### Suspension

- Springs/air bags/shocks
- U-bolts
- Mounts-springs/air/torque

### Brakes

- Hoses/lines
- Brake chamber
- Slack adjustor
- Drum/rotor/disk

### Rear of Trailer

- Doors/ties/lift
- Splash guards
- Lights/reflectors/ABS

---

### ALL PASSENGER VEHICLES

#### PASSENGER ITEMS

- Passenger entry/lift
- Emergency exits
- Seating

#### BAGGAGE COMPARTMENT

- Doors/compartments)

#### STUDENT LIGHTS

- Student lights

#### STUDENT SAFETY ITEMS

- Stop arm/safety arm
- Student mirrors
- Emergency kit/body fluid kit
CLASS A CDL
Any combination of vehicles with a GVWR of 26,001 or more lbs. provided the GVWR of the vehicle(s) being towed is in excess of 10,000 lbs.
A common Class A vehicle is a tractor trailer also known as a semi.

CLASS B CDL
Any single vehicle with a GVWR of 26,001 or more lbs. or any such vehicle towing a vehicle not in excess of 10,000 lbs. GVWR.
Common vehicles include school buses, dump trucks, cement trucks, garbage trucks, boom trucks, and straight trucks.

CLASS C CDL
Any single vehicle, or combination of vehicles, that does not meet the definition of Class A or B, but is either designed to transport 16 or more passengers, including the driver, or is placarded for hazardous materials.

COMMERCIAL LEARNER’S PERMIT (CLP)
You must have a CLP for at least 14 days before getting an initial CDL or a CDL upgrade, if it requires a skills test.
You can’t take a skills test during the first 14 days after issuance. Scheduling a skills test when issuing the CLP is OK, as long as it is scheduled 15 days or more after the CLP was issued.
Your CLP is valid for one year from the date of issuance, with no renewal period.

CDL RENEWALS
(U.S. citizens are only required to show proof of lawful presence one time when renewing their CDL. Drivers will need to bring one of the following documents when renewing their CDL:
- Certified copy of US Birth Certificate
- Valid US Passport
- Consular Report of Birth Abroad (CRBA)
- Certificate of Naturalization
- Valid US Passport

NEW RESTRICTIONS

E - No manual transmission equipped CMV
O - No tractor-trailer CMV (see below)
Z - No full air brake equipped CMV

DRIVERS MUST TEST IN A REPRESENTATIVE VEHICLE

1. No unlimited end equipped CMV
2. No tractor-trailer CMV (see below)
3. No manual transmission equipped CMV

For hazardous materials, including the driver, or is placarded but is neither designed to transport 16 or more passengers, nor combination of vehicles, that does not meet the definition of Class A or B.

CLASS C CDL

CLASS A CDL

CLASS B CDL

REPRESENTATIVE VEHICLE EXAMPLES

Passenger Vehicle
Compact School Bus
Hazardous Materials Placards
Garbage Truck
Boom Truck
Dump Truck
School Bus
Limo
