

Subject: TTCP Class Schedules have been changed due to increase of COVID-19 cases.

**Please read this note completely.**

The Technical Training & Certification Program (TTCP) has worked hard to restructure our training this season to minimize contact due to the ongoing COVID-19 pandemic. As COVID-19 numbers have increased dramatically in Iowa, we are now taking additional steps in how we deliver the program for the safety of our students and staff.

**All RECERTIFICATION classes for the 2020-2021 training season are cancelled. If you have a certificate expiring on 12/31/20, please complete the free, web-based review in IowaDOTU for that certificate and it will be extended to 12/31/21.** If you do not complete the free, web-based review, the certification will **not** be extended. Instructions on registering for and completing the free, web-based certification reviews are available at <https://iowadot.gov/training/web-based-training>. The only exceptions are Prestress recertification class, which due to a very small number of participants will proceed as scheduled, and Nuclear Gauge recertification, which is web-based and will be available January 1<sup>st</sup> - March 31<sup>st</sup>.

If you have already registered for a recertification class, your enrollment will be cancelled automatically. If you have already sent payment, your payment will be returned or refunded. Please allow us some time to process this, as there are large numbers of people affected.

There are two CERTIFICATION classes in **December** that will be **RESCHEDULED**.

**Aggregate Technician** certification class on December 8-11, 2020, will now be held January 19-22, 2021.

**Level I PCC** certification class on December 14-16, 2020, will now be held January 27-29, 2021.

If you are enrolled in either of these classes, your enrollment will be moved automatically. There is nothing further that you need to do. If the new dates do not work for you, you can unenroll and choose a different session.

The TTCP will continue to closely monitor the COVID-19 situation in Iowa. Future adjustments may be necessary. Please check the TTCP web page <https://iowadot.gov/training/technical-training-and-certification-program> for announcements.

Please contact [dot.ttcp@iowadot.us](mailto:dot.ttcp@iowadot.us) with any questions.
