FY 2019 Public Transit Infrastructure Grant Program
Public Transit Infrastructure Grant Program

- Program created by 2006 General Assembly
- Funds vertical infrastructure projects for public transit
- All 35 public transit systems are eligible
Project Evaluation Criteria

• No more than 40-percent of the appropriation can be awarded to an individual transit system
• Structural integrity of existing facilities
• Safety enhancements to existing facilities
• New facilities
• Projects should be “shovel ready” and capable of completion in 18 months
Available Funding and Application Summary

• Available Funding:
  – Annual appropriation:  $1,500,000
  – Underrun/withdrawals:  $  92,500
  – Funds available:  $1,592,000

• Application Summary:
  – Total number of projects:  6
  – Total project costs:  $2,624,807
  – Total amount requested:  $2,099,845

Public Transit Infrastructure Grant Program

Map of Applications Received

- Application received
- Application recommended for funding

- 4 Transit Systems in urbanized areas > 200,000 population
- 8 Transit Systems in urbanized areas 50,000 to 200,000 population
- 7 Transit Systems in small urban areas < 50,000 population
- 16 Regional Transit Systems
QUESTIONS?

For more information on Iowa's public transit and intercity bus programs, visit www.iowadot.gov/transit
New bus storage and administrative facility – Benton County – Region 10 (Cedar Rapids)

This project will allow more vehicles to be stored indoors, provide access to a wash bay that will improve the condition and lifespan of the transit vehicles, include a dedicated maintenance bay, office and storage area. The existing facility is within the floodplain of the Cedar River and had been inundated in 2008 and 2016. The proposed location is outside of the floodplain.

Total Cost: $397,500
Requested: $318,000 (80%)
New HVAC system – Ames (CyRide)

This project will replace outdated HVAC equipment at five separate areas of the CyRide bus maintenance facility. This includes 1) 2005 Multi-Stack HVAC Unit, 2) 2002 Wash Bay HVAC System, 3) 1989 Southwest Bus Storage HVAC system, 4) 1989 Shop Area Office HVAC Improvements, 5) 1983 Restrooms/Storage Roof Top Unit Replacement

Total Cost: $651,373
Requested: $521,098 (80%)

Phase II transfer center - Dubuque

This project is the second phase of the ARC Transfer Center. Phase one was completed in 2012, and provided a canopy for passengers as well as exterior seating. Phase two includes a climate controlled indoor waiting area with restrooms and a janitor’s closet. Four of The Jule’s nine routes use this location, which is the second most used stop and averages 200 trips per day.

Total Cost: $430,929
Requested: $344,743 (80%)

Return to List of Applications Recommended
Renovated transit maintenance and storage facility – Sioux City

This project involves renovating the mechanic’s locker room area, and upgrading facility lighting. Two major energy audits have been conducted and each projected an electric utility savings of fifty percent or more could be achieved from lighting upgrades. This projects replacing 220 interior and exterior light fixtures with LED fixtures, which will improve safety, as well as electric utility costs.

Total Cost: $169,000
Requested: $135,200 (80%)
New bus storage and vehicle wash facility – Region 15

This project involves constructing a new transit vehicle storage building in Ottumwa, with an attached wash bay that will improve the condition and lifespan of the public transit vehicles.

Total Cost: $522,750
Requested: $418,200 (80%)
