

- Program created by 2006 General Assembly
- Funds vertical infrastructure projects for public transit
- All 35 public transit systems are eligible

Project Evaluation Criteria

- No more than 40-percent of the appropriation can be awarded to an individual transit system
- Structural integrity of existing facilities
- Safety enhancements to existing facilities
- New facilities that enhance the life of the transit fleet or optimize transit service
- Projects should be "shovel ready" and capable of completion in 18 months

Available Funding and Application Summary

Available Funding:

Annual appropriation: \$1,000,000

– Underrun/withdrawals: \$0

– Funds available: \$1,000,000

Application Summary:

Total number of projects:

Total project costs: \$38,652,056

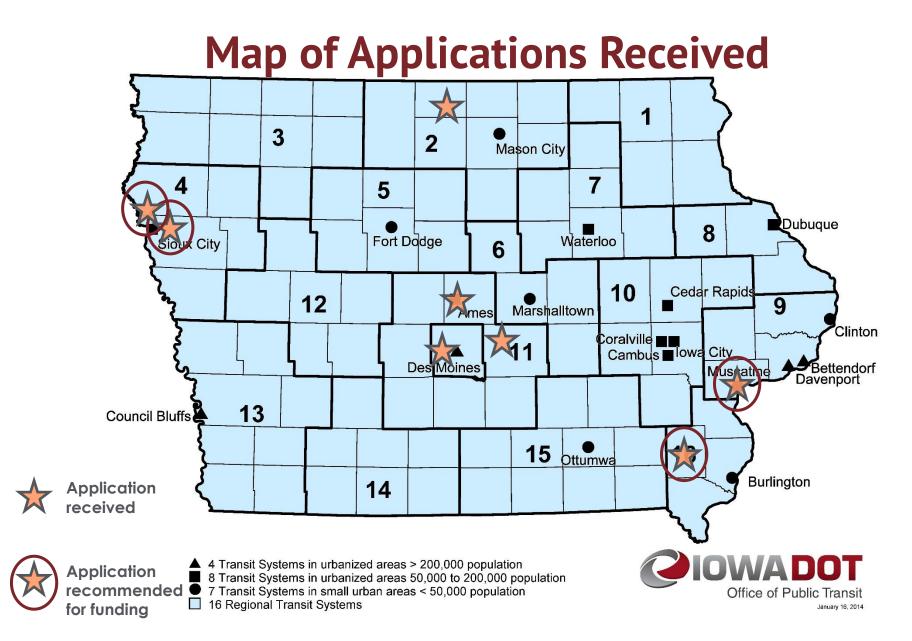

Total amount requested: \$2,700,000

List of Applications Recommended

PROJECT NAME	SPONSOR	TOTAL PROJECT COST	REQUESTED AMOUNT (% of Total Project Cost)	RECOMMENDED AMOUNT (% of Total Project Cost)
<u>Automated Bus</u> <u>Wash</u>	Siouxland Regional Transit System	\$300,000	\$240,000 (80%)	\$240,000 (80%)
Bus Wash Facility	City of Muscatine	\$1,631,700	\$600,000 (36.77%)	\$400,000 (24.51%)
Boiler/Heat Pump Replacement	City of Sioux City	\$150,656	\$120,000 (79.65%)	\$120,000 (79.65%)

Siouxland Regional Transit Automated Bus Wash

This project will provide a new automated bus wash to maintain fleet on the property of the new building and create additional opportunities for fleet management expansion.

Total Cost: \$300,000

Recommended: \$240,000 (80%)

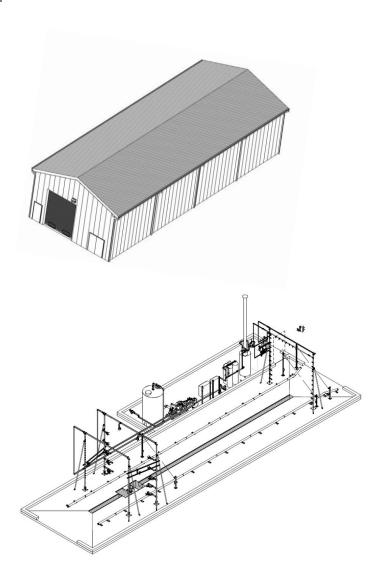

City of Muscatine – Bus Wash Facility

This project will construct an automatic drive through wash bay that includes an automatic high-pressure wash system with water reclamation and manual pressure washer.

Total Cost: \$1,631,700

Recommended: \$400,000 (24%)

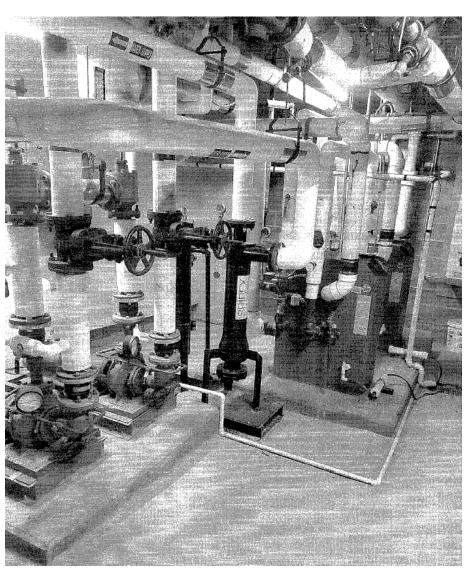

City of Sioux City – Boiler/Heat Pump Replacement

This project will replace two heating water boilers and associated piping serving the Martin Luther King Jr. Transportation Center

Total Cost: \$150,650

Recommended: \$120,000 (79.65%)

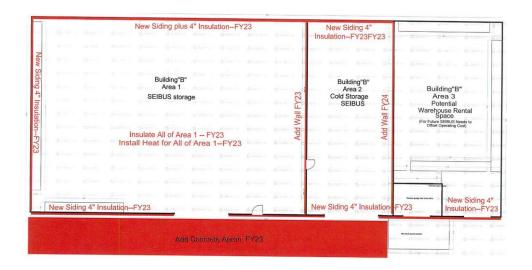

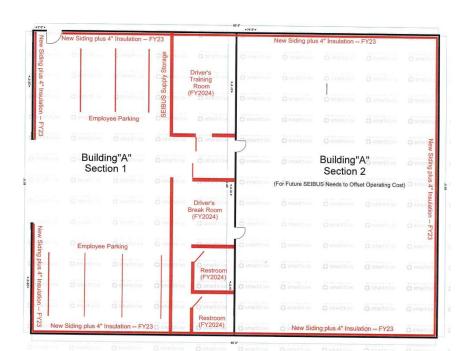

Southeast Iowa Regional Planning Commission - Renovation of Facility

This project is for a major renovation of an existing facility in Mt. Pleasant. This property consists of two buildings: an 8600 sq ft steel warehouse and 3200 sq ft steel front office/storage facility. Renovation of this facility is to make it ready for use as a vehicle storage facility for vehicles used in Henry County. Renovation includes roof repair and insulation, siding, adding walls, constructing a concrete apron, installation of security cameras and installation of a furnace.

Total Cost: \$300,000

Recommended: \$240,000 (80%)
