

IFB Answers for EV procurement – Addendum #2

New Item 178 ADA Van – 17 Seating - Since we were unable to read the rest of 121.m “Driver seat” on the original bid I was not able to ask to accept the Ford OEM driver seat and OEM fabric in the van category instead of USSC G2E or Recaro LX-S bus seats. I do not think it is even possible to get those two seats for a Ford transit. They are primarily used in the bus category. **This request to use Ford OEM driver seat and OEM fabric is accepted.**
