### [New version of Workday coming soon](#)

One of the reasons we implemented Workday is the consistent review and revision that takes place because of input from Workday customers just like us. Twice a year, Workday releases a new version that addresses the most common ideas that have been raised to improve functionality and customer experience.

Beginning on March 7, you may notice some subtle changes to the Workday screens you may be used to. One of the main focus areas of this revision of Workday comes in the “expenses” area, but there are small changes in a number of areas.

As always, we want you to get in and search around in Workday. You can't break it and you may even learn a few things you hadn't discovered before. If you get stuck and need help, remember the [Iowa DOT's Workday website](#) has all kinds of information (Note: some may need to be updated due to the new changes. We can't make the updates until the new version is out.) You can also reach out to the Helpdesk at 515-239-1075 or [DOT.Helpdesk@iowadot.gov](mailto:DOT.Helpdesk@iowadot.gov).
