APPENDIX A OR SEPARATE DOCUMENT

Guidelines for the Application of
**SPEED FEEDBACK TRAILERS**
Iowa DOT
DRAFT September 22, 2017

The following applies to Iowa DOT owned Wanco SPEED FEEDBACK TRAILERS. For other manufacturers, their operating manuals shall be referred to.

NORMAL OPERATION:

The changeable message portion of the sign shall display the speed of the approaching vehicle as "XX" in MPH. The speed limit means the regulatory speed limit in the work zone.

SETUP:

See the photo below on step to setup the speed feedback trailer.
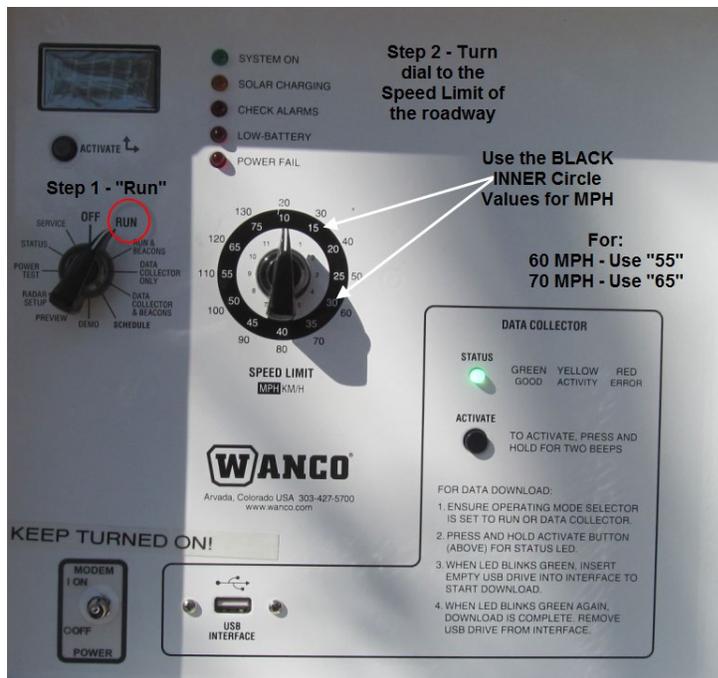

DATA COLLECTION MODE:

This section is blank. What should be here?

DOWNLOADING DATA:

IT Division (1-1075 helpdesk) will probably have to do this.

Go to: ftp://ftp.wanco.com/ Username: "guest" Password: "guest"

To get the IP address of your speed trailer (with data logger).

Call Willy Sorenson, 515-239-1212 in Office of Traffic & Safety

Or Jason Dale 515-239-1995 in the Office of Traffic Operations.

Add Traffic Data From Remote Collector

Enter the IP Address of the Remote Collector then press

ERROR

There was an error attempting to connect to the Collector. Please try again.

If the issue persists, please contact Wanco Support.
